2	Development District Board Meeting, on the 4th day	2	MR. BALDWIN: That was my offset.
3	of August, 2015, at the Westchase Community	3	MS. WHYTE: Oh, that's right, and it was
4	Association Office, 10049 Parley Drive, Tampa,	4	offset from R and M Walls, which is power
5	Florida, beginning at 4:03 p.m., reported by	5	washing and our all the maintenance for
6	Kimberly Ann Roberts, Notary Public in and for the	6	that, which is a line item we certainly need.
7	State of Florida at Large.	7	So we balanced it off with R and M Grounds.
8	****	8	CHAIRMAN CHESNEY: Okay. And we don't
9	CHAIRMAN CHESNEY: All right. I would	9	need to have a motion for that necessarily,
10	like to call the August 4, 2015 Westchase CDD	10	unless there is any reason why we wouldn't
11	meeting to order.	11	accept staff's recommendation.
12	Would the record reflect that all	12	Okay. Is there anything else you want
13	members, supervisors, are present. Just	13	to discuss about the budget before we open it
14	because Mark is here, we'll say the Pledge.	14	up to the public?
15	(The Pledge of Allegiance is recited.)	15	MR. ARGUS: The 2007-1 Debt Service.
16	CHAIRMAN CHESNEY: I understand we did	16	MR. BALDWIN: Correct. The 2007-1 Debt
17	not receive minutes. But is there a motion to	17	Service, next year we will be applying the
18	approve the consent agenda?	18	reserve in order to pay that off, so there
19	MR. ARGUS: Let's wait till next month.	19	will be a reduction next year for those
20	CHAIRMAN CHESNEY: Okay. Hearing none,	20	residents that were affected by it.
21	we'll pass.	21	The 2007-2 will be for, I think, another
22	The first thing is, I need a motion to	22	two years down the road after that.

The next resolution is the resolution that levies and imposes the non-ad valorem maintenance special assessments is Resolution 2015-8. It's entitled "A Resolution Levying and Imposing a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the contract for the paving for the Vineyards is going to be scheduled for around October, so I'll be bringing the final contract to you next month to get it executed for the contractor to do that. One of the things, if you'll recall, is that we need to do the control points, the survey work in advance, and obviously we had some fees that were quite large from our survey company. So I solicited a proposal from another survey company to do it for about \$7,000 a little less than \$7,000, so it's about half of what our survey department had previously charged. So I just wanted to let the board know and get authorization to get their survey work scheduled. It would be with Landmark Engineering and Surveying Corporation, so MR. ARGUS: That's an additional expense to what we've already authorized? MS. STEWART: That's correct. That's correct.

We had decades of for subdivisions, they're based on very 3 3 overpumping of the drinking water well fields, specific storm events, and they try to 4 which basically brought a lot of the water 4 establish those storm events as conservatively 5 5 levels down, too. as possible, but Mother Nature doesn't 6 6 Now we have an above-average rainfall. function like that. 7 We have -- no longer can we get drinking water 7 I mean, you can have back-to-back 8 8 from the south plant and reservoir. And one storms, and we don't design these for back-to-9 9 of the things, the canals, which are -- really back storms. Okay? The good news is, if you 10 1.0 is a flow-way, a conveyance system, and part look at the big picture and you compare it to 11 of the drainage design for the community, it 11 what we had saw in Twin Branch Acres, the 12 was really not considered -- or it wasn't 12 community, and has historically, every time 13 13 defined as a conveyance system necessarily. we've gotten a comparable hundred-year storm 14 It was basically just a receiving wetland. 14 event, has really drained, from a technical 15 15 If you look at the drainage plans, perspective, excessively. 16 you can see that it basically falls out, the 16 It may unnerve some residents who might 17 17 wetland with seasonal high water. So, have their house right up on that conveyance 1.8 basically, when they connected all of the 18 system, but, thus far, knock on wood, it 19 ponds together and discharged into the 19 functions fine. Okay. 20 wetland, they were only concerned about that 20 MR. ARGUS: So we know nobody that 21 water level, that was basically what they 21 had water intrusion in Westchase? 22 consider to be the historical water level in 22 MS. STEWART: To the best of my 23 23 the system, to make sure it didn't back up knowledge. 24 into the ponds. 24 MS. WHYTE: (Inaudible) 25 25 Today, we might do things a little MS. STEWART: We have another situation Page 22 Page 24 1 1 differently because of this kind of we're going to talk about, but -- so I think 2 2 situation. You know, now we ask more that --3 questions, because you have a lot of water 3 MR. BARRETT: (Inaudible) 4 flowing from Nine Eagles into this canal, 4 MS. STEWART: Okay. We want to talk a 5 5 which bottlenecks into these little -little bit about Stonebridge. And what's the 6 miscellaneous little creeks that go into Twin 6 other one? 7 7 Branch. MS. WHYTE: Sturbridge. 8 So these are really bottlenecks. So we 8 MR. BARRETT: Before you jump into 9 can't widen them. We have a wetland 9 that --10 10 delineation that has defined and set the MS. STEWART: Yes. 11 limits of this conveyance area. Unless you 11 MR. BARRETT: -- can I ask a follow-up? 12 were to basically buy every house along the 12 One of the questions that I had, I think a 13 creek and then go in and try to widen it, 13 Woodbay resident said, "Look, you need to 14 there is no way to increase the capacity. 14 follow up on this." 15 Now, the county is fully aware of the 15 There is at least a perception among 16 situation, particularly the crossings 16 some of the residents there that the flow of 17 underneath the roads in Twin Branch Acres. 17 canal is being limited by like the overgrowth 18 Also, remember, this is tidally influenced. 18 of trees and bushes. 19 So when you have an intense storm event and 19 Is that -- I guess my question is 20 high tide together, you've probably seen it on 20 two-fold. Is that really a cause in your 21 the news. South Tampa, you know, just 21 opinion, and if it is, who is in charge of 22 experienced that. 22 cleaning that? Because there seems to be some 23 It exacerbates the situation, but there 23 confusion from at least the residents about 24 is no way to control Mother Nature and the 24 whether that's the CDD or the county, or even

4	MRS. O'BRIEN: So how come the other	4	mean, water was high on both sides, but people
5	roads are dry, like the other pond that's	5	weren't using the road to get to their homes
6	further is our pond behind our house, is	6	in Glenfield yesterday. So my comment back to
7	that the level it's flowing, and it's all	7	the lady engineer here is that the design was
8	flowing down there, and it's going to come	8	not to have that kind of level of flooding.
9	right in our house?	9	MRS. O'BRIEN: No.
10	MS. STEWART: Each street is based on a	10	MR. O'BRIEN: There's no way it was

If the county wants the county to look at the solutions -- a long-5 5 to say, "You know what. Twin Branch Acres, term solution that also impacts Westchase. So 6 these people had home flooding, we're going to 6 I've got a contact number. I've given it to 7 7 put a pump in there and pump it," that's up to Tonja. We're going to touch base with him. 8 8 the county to do. Okay? MR. ARGUS: What's his name? 9 I don't have anywhere to discharge, and 9 MRS. O'BRIEN: Moore. Robert Moore --10 if I was to throw a pump in their pond, trying 10 Robert Beech Moore. 11 11 to get the water level to go down, I'm just MS. But he said he's working 15 emergency way of handling this. 15 with county. 16 16 Now, if the water levels go down and if There is a task force. They know the 17 the weather cooperates -- a lot of this is 17 county has a problem, and we're going to get 18 based on weather -- and we start to see the --18 in on that with them, so we'll be working more 19 19 and just FYI, the complaints up at Waterchase, closely with the county on that and with Tonja as well, and we'll keep you up to date as we 20 I'm here telling Sonny, "I can't improve their 20 21 situation, because if I improve their 21 make progress or as we start attending 22 22 situation, it's just dumping more water on meetings. 23 2.3 you." So I have to play a balancing act CHAIRMAN CHESNEY: Let me just ask the 24 between the two problems. You know what I 24 O'Briens. Do you still have water in the 25 25 street? mean? Page 38 Page 40 1 1 MRS. O'BRIEN: Yes. So if the canal water level starts to go 2 down and the tide cooperates and discharges 2 MR. O'BRIEN: Yes. The water in the 3 quicker and we can throw a pump in there, 3 street at the moment is probably about four 4 4 inches each side, and the center is just we'll do that. And, I mean, that's one of the 5 5 things I'm going to suggest, that we have a coming clear, you know. 6 6 MR. ARGUS: I drove down Glenfield just pump available to us, that's something we're 7 7 prior to the meeting, and by their house, the going to look into doing for Sturbridge. 8 water also crosses the road. We have two or 8 Okay? So we can continue to monitor it. If we 9 three places down Glenfield that I believe the 9 10 CDD has placed barricades, indicating that 10 start to see some changes, then we can act, we 11 there was additional flooding or high water 11 can get somebody to go out there to do that. 12 further down, but I did not see any indication 12 CHAIRMAN CHESNEY: I thought a couple of 13 that any of the houses were flooded yet. 13 years ago we were looking at buying one. Did 14 MS. WHYTE: No, none of the houses got 14 we not buy one? 15 wet. 15 MS. WHYTE: We talked about it back 16 CHAIRMAN CHESNEY: Mr. Mills, you had a here, but the county resolved a solution at 16 17 17 that end. question. 18 MR. MILLS: Is there any opportunity for 18 CHAIRMAN CHESNEY: Okay. 19 the county to truck pump the water and dispose 19 MS. WHYTE: Excuse me. Just getting 20 of it elsewhere? 20 back to this, I went over yesterday and spoke 21 MS. STEWART: To be perfectly -- we can 21 to somebody over at Twin Branch. Of course, 22 ask anything, but I think because of their 22 Tonja's concern was, we're so high. Where is 23 funding sources and their restrictions and 23 our water that's going to -- you know, what's 24 their prioritization, I'm not sure that they 24 the problem?

It's been almost two weeks -- more than two weeks since they've been able to mow, and Doug has given them strict instructions not to mow due to the rutting. And, like I said, the rain has really set them back.

CHAIRMAN CHESNEY: Yeah. Have we -when will Doug be back?

MS. WHYTE: He is back on the 17th. He is gone a full two weeks, but he is in communications with me. I send texts every day, and he calls in.

CHAIRMAN CHESNEY: I guess my only concern is, there was a significant amount of damage because of the flooding and stuff to a lot of areas in Westchase, and I'm just curious if we thought that was going to be a significant expense.

MS. WHYTE: That's already been addressed. I've got a quote. We've got about -- just Montague alone was 12,000 square feet of sod that was damaged. It is going to cost approximately about \$9,000 to get that repaired.

Page 78

Now they did check the irrigation to see if any of the irrigation was damaged, and luckily enough, it doesn't look like any of it is damaged.

CHAIRMAN CHESNEY: Really? MS. WHYTE: Yeah.

CHAIRMAN CHESNEY: I find that hard to

believe.

MS. WHYTE: That's exactly what they said. But the sod replacement, now, that's top -- heavy, like -- you know what I mean? -they're roughing it out. They're going to try to salvage what they can, but I needed direction from the board, because that is a significant amount.

CHAIRMAN CHESNEY: Yeah.

MS. WHYTE: How do you want me to -- I mean, it's really wet right now to do it, but it would take a couple of days. They want to let it dry out a little bit.

They're going to have to remove especially -- certain ones they can perk up and move once they cut it, but along -especially along the sidewalks where the vehicles drove, they rutted it up really bad. so important that they can just drive off the roads.

Here is my suggestion. We have the photographs. They're public record. Put them on our website, unless Erin tells me otherwise.

MS. WHYTE: Can we -- I don't know. Can we --

MR. RAGUSA: I also would like you guys to explore with Hillsborough County the possibility of bringing a claim against those folks for the damages we've incurred.

You can get the owner off a license plate, and there are a number of photographs that have the license plate that's visible.

MR. BARRETT: They're all visible.

1	Page 81		Page 83
	Maybe	1	putting it on the website. I

8	an intentional act. You know, they were off	8	still speeding. So that's irrelevant.
9	road.	9	Secondly, I'm not going to be surprised
10	So I think the chance of actually	10	to learn that there's going to be a
11	getting any money is slim to none. You know,	11	combination of Westchase and non-Westchase
12	I just think that this is a waste of staff's	12	residents that incurred this damaged that were
13	time for the amount of money. It is	13	we're able to identify.
14	deplorable, what they did, but it's just not a	14	I have no concerns with non-Westchase
15	practical matter. So that's my position on	15	residents, with us making an insurance claim.
16	it.	16	And the Westchase residents are, you know, why
17	MR. RAGUSA: Can I ask were the cars	17	should to the points that have been made

11	CHAIRMAN CHESNEY: All opposed.	11	MR. ROSS: It's a very brief document.
12	(Board members signify in the negative.)	12	It looks like it's three or four pages. You
13	CHAIRMAN CHESNEY: All right. Passes	13	can just look at it. It says I'll just
14	three to two.	14	quote it real quick. "Sidewalks. Purchaser
15	(Motion passes.)	15	shall construct sidewalks within the right of

15	you for that.	15	pursue it.
16	MS. MCCORMICK: Sure.	16	CHAIRMAN CHESNEY: Okay. Why don't you
17	MR. ROSS: Then the second thing I had	17	provide those documents
18	is, I was reminded by a resident of the vacant	18	MR. ROSS: Yeah, I'm happy to do it, if
19	land next to the railroad tracks. I think you	19	it's helpful.
20	had it up on your screen a moment ago.	20	MR. MENDENHALL: Sure.
21	The resident purchased this land several	21	MR. ROSS: That was it. Thank you.

4	I was poking around, and it looks like	4	so
5	there are some serious challenges. Perhaps	5	MR. ARGUS: All right. I'm just
6	that purchaser is no longer interested in	6	confirming that all as far as
7	using the property and developing it for	7	MS. WHYTE: Everything is off. All of

12	CHAIRMAN CHESNEY: Okay. Let me	12	MR. ARGUS: The second question
13	interrupt you	13	CHAIRMAN CHESNEY: My fault. I haven't
14	MR. ROSS: Yeah, go ahead.	14	done that yet.
15	CHAIRMAN CHESNEY: Andy, did you take	15	MR. ARGUS: Yes. The we have in
16	any action?	16	the past, we've talked about a plan for storm
17	MR. MENDENHALL: No.	17	damage, a hurricane comes through, something
18	CHAIRMAN CHESNEY: Okay. All right.	18	like that. It's the season now. Have we
19	Well, I would be happy, if like we did prior,	19	updated it, or are we planning to update it?
20	that we put you kind of, in conjunction with	20	Where do we stand on an emergency plan?
21	Andy, to kind of explore it.	21	MS. WHYTE: We have some sort of an

3	MS. WHYTE: Oh, not yet.	3	you know, it's something we should
4	MR. ARGUS: Well, once we get it done.	4	definitely explore, because I think it would
5	MS. WHYTE: Eventually. Eventually we	5	help us. And, like I said, the meetings,
6	can do that. Add emergency contacts and	6	there is actually a grant program through the
7	things like that, absolutely that would be	7	state of Florida where we can send members,
8	something we can certainly address.	8	and they pay for it.
9	MR. ARGUS: Okay. And for my third area	9	MR. ARGUS: And this email also

15	meeting earlier.	15	have shovels, and they do have the sand.
16	CHAIRMAN CHESNEY: Yeah. So I know I	16	And they run out, we have dirt, which
17	said this two months ago that I would go ahead	17	obviously doesn't function as well as sand,
18	and get that.	18	but we do have that at the office if need be,

It definitely has --8 8 I mean, it's great and it's reached its useful obviously is not going to happen. 9 life. It's another part about moving the 9 I would hope that -- I'll come next 10 month to the meeting -- while we have expanded 10 basketball court, which we just put in five 11 requirements for the ADA, to remodel the 11 years ago, and that -- what a God-awful entire Glencliff Park? That's the first 12 expense, moving it to the other end, which has 12 question. And I've got residents wondering 13 me literally scratching my head, but I'll 13 14 leave it at that. 14 what's going to happen out there. 15 CHAIRMAN CHESNEY: Mr. Ross. 15 That's a major, major change, why we went from doing A to doing A plus everything 16 MR. ROSS: Are you the same gentleman 16 else? That's my only point. I have more, but 17 who was in the last month's WOW and you were 17 that's -- do you understand what I'm saying? 18 recognized for being a veteran? 18 19 CHAIRMAN CHESNEY: Yes, I understand. 19 MR. BARRETT: Yeah, not only a veteran, 20 20 MR. FUGIT: Okay. a significant war hero. 21 MR. ROSS: Thank you for your service. 21 CHAIRMAN CHESNEY: I mean, we've been 22 basing our recommendations -- I mean, basing 22 I recognize the name and what you said, so I 23 just wanted to acknowledge that. And then 23 our work on the recommendations of our park 24 just to add to Mr. Ragusa's comments, I have 24 consultant, so --25 MR. FUGIT: Yeah, I understand. 25 not heard any negative feedback about what Page 102 Page 104 1 CHAIRMAN CHESNEY: And we also -- he did we're doing. 1 2 2 I heard some concerns, are we looking at receive input from all of the supervisors and 3 3 every angle of this. So, for example, some of some public input at the beginning, so --4 the soccer folks want to make sure we're doing 4 MR. RAGUSA: Well, I think I can also 5 certain stuff for them, whatever it may be, 5 add to that answer. We tasked our design 6 but I have not received any negative feedback 6 professional with really two functions. The 7 that we're going in the wrong direction or 7 first one is to ensure ADA compliance. 8 that folks in the community don't think it 8 The second function was to see how we 9 would help the overall community. 9 can improve those parks, and that is part of 10 MR. FUGIT: Okay. Thank you. 10 the effort of keeping Westchase current, 11 CHAIRMAN CHESNEY: All right. Anything 11 because the parks were dated. 12 else? 12 If you actually looked at the ADA 13 (No response.) 13 analysis, much of the equipment and much of 14 CHAIRMAN CHESNEY: I need a motion to 14 the structure had to come out anyways. 15 15 MR. FUGIT: Right. adjourn. 16 MR. RAGUSA: Well, let me just ask --16 MR. RAGUSA: So it's not like we said, 17 CHAIRMAN CHESNEY: Sure. 17 "Let's go out and build a water park or a 18 MR. RAGUSA: And I had a discussion, a 18 skateboard park." What we have done is ask, 19 detailed one, with Doug. It would appear that 19 how can we improve the equipment and the 20 our landscape contractor changed the mulch in 20 service we provide to our residents in the 21 Harbor Links, possibly others, and Doug is 21 confines of the real property? 22 going to go back and take a look at that 22 If there is something that is the latest 23 issue, look at our contract specs. 23 and greatest out there, bring it to us, and 24 But, in my eyes, it's a clear -- it does 24 let's at least look at it and consider it. 25 not -- my recollection is it does not meet the 25 But I can see that some residents may think

14	So I'm just letting you know.	14	And what it was, was that when we had
15	Has anyone else had the same issue?	15	the drain blown, all that came out was pine
16	MS. WHYTE: No, no nobody else has	16	needles, and within minutes, they stood back
17	called. You're the only one. We actually	17	they said it sounded like a ball, when you
18	spoke to the vendor, we spoke to Davey. Doug	18	take it into a hole and you pop it, and it
19	made it very clear to Davey what was required	19	just releases. They stood back, and the water
20	and what in the contract.	20	from the pond just went phewwwwww.
21	This was it's pine bark. It was	21	And that is pine needles. And that is
22	delivered in big, big, big tractor-trailers	22	one of the main reason we went away from pine
23	and dumped, scooped with our tractor onto	23	needles. We still have a fair amount of
24	their flatbeds and then taken and disbursed	24	pine trees on property causing problems,

It's what we've had in that community for 20 years. It is a composted material that's been darkened black, and it's got chippings, it's got pine tree chippings in it, not pine bark. They've taken small pine trees and shredded it. It looks like cypress mulch. MS. WHYTE: It's not cypress mulch.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	biggest problem. That is why we asked the board to allow to us to pine nuggets rather than pine needles. And the pine bark seems to be working, but I will definitely explore that with our contractor and with OLM and get his expertise. CHAIRMAN CHESNEY: All right. Mr. Ross. MR.
