1	The transcript of Westchase Community	1	can save some dollars.
2	Development District Board Meeting, on the 2nd day	2	MR. MENDENHALL: Yeah, if you advertise
3	of October, 2018, at the Westchase Community	3	them all now, you're not required to have
4	Association Office, 10049 Parley Drive, Tampa,	4	them, and you do it in one shot, rather than
5	Florida, beginning at 4:05 p.m., reported by	5	an iterative basis, which would cost you for
6	Kimberly Ann Roberts, Notary Public in and for the	6	each ad.
7	State of Florida at Large.	7	MR. CHESNEY: Can we do them at a
8	* * * * *	8	different interval, like instead of right
9	CHAIRMAN MILLS: Let's call the October	9	before the meeting?
10	2nd CDD meeting to order. Let's let the record	10	MR. MENDENHALL: Yeah. You could do
11	reflect all supervisors are here this month,	11	that at whatever is your convenience.
12	as well as district staff, district manager.	12	CHAIRMAN MILLS: What do you recommend?
13	District counsel, I'm guessing, is on her way	13	MR. CHESNEY: Two weeks prior to the
14	because I talked to her earlier today. So	14	meeting maybe. Yeah.
15	we'll start with the Pledge of Allegiance.	15	CHAIRMAN MILLS: Mr. Ross.
16	(The Pledge of Allegiance recited.)	16	MR. ROSS: Every month? Every quarter?
17	CHAIRMAN MILLS: The first item on the	17	MR. CHESNEY: Well, we can always cancel
18	agenda is the consent agenda. It includes the	18	them.
19	approval of the August meeting minutes, with	19	MR. ROSS: No. I mean I'm just
20	any corrections that have been submitted,	20	looking for direction.
21	acceptance of the financial statements for	21	MR. CHESNEY: Yeah, I would say I
22	August, and the proposed meeting schedule for	22	mean, I'd say we advertise them every month.
23	fiscal year 2019 beginning this month.	23	I definitely don't think we would need them
24	MR. MENDENHALL: Yeah. This month is	24	except for really periodically. But this way,
25	advertised, but we put it on there just	25	I guess we're done with it.

1	because it's part of the year.	1	(Ms. McCormick enters the room.)
2	CHAIRMAN MILLS: Right. Okay.	2	MR. CHESNEY: And we could announce them
3	MR. MENDENHALL: And the only other	3	at the meeting, whether or not we're going to
4	thing I would mention, if I could, is we don't	4	have them.
5	as you can see, we don't have a workshop	5	MR. MENDENHALL: Whether you're going to
6	scheduling that we kind of talked about doing	6	have them, sure. Yeah, because if it's two
7	and not doing them, but we currently don't	7	prior, then it's, you know, two weeks after.
8	have that, so that I made that to the	8	So you would have a good idea if you need it.
9	board, so if you do want to advertise	9	MR. CHESNEY: That would be my
10	workshops similar to last year, which was	10	suggestion.
11	basically the day before, you can always	11	MR. ROSS: Well, when we've cancelled

This is -- the green circles, 3 under the word "map," there is a site that we 3 I put them there for interpretation -- or just 4 4 can barely get into the screen, and then as for demonstration purposes. 5 5 you come down to the intersection of Linebaugh The carriers, they really customize, 6 and Countryway, you have another site in the 6 like I said, the coverage area that they have. 7 7 northeast corner there. But you can tell just by looking at this map, 8 8 Continue on down south, Countryway, on there is a pretty big coverage gap right 9 the west side, you have three sites where all 9 there. 10 the carriers are on one of the three towers. 10 MR. BARRETT: And it's represented by 11 If you keep going down, I want to say --11 the red circle? 12 12 MR RUIZ: Yes. So the red circle is what is that, that these are marked -- Tampa 13 13 Road? Is that right? Tampa Road? drawn off of -- the center point that the 14 14 And, again, if you just kind of keep radius is drawn off for the red circle is the 15 going around, around the clock 15 community association property, almost to the 16 intersection of Countryway and Linebaugh, counterclockwise, so to speak, you'll see that 16 17 you have towers all around your community that 17 which, realistically, in an ideal world, 18 really can handle about a three-quarter-mile-18 that's where you'd like to put a tower, 19 19 radius coverage area. somewhere in that area. 20 20 And where there's some overlap, what You can see by that red circle that 21 they'll do is they'll shrink the area, just 21 that's why you would want to put it there. 22 22 reuse the frequencies. For example, in the The property to the south, I want to say is 23 23 lower right of the map, you see there is some Glencliff Park. 24 big coverage overlaps, but it's also extremely 24 Glencliff Park is a little close to the 25 25 densely populated. property -- to the tower to the south off of Page 22 Page 24 1 1 So a lot like you would have a Tampa Road. However, carriers oftentimes can 2 flashlight turned upside down, and the lower 2 make not optimal sites work when it's their 3 3 you go, the smaller the circle gets. The only option. 4 4 higher you go, the bigger the circle gets. You know, I can sit here and tell you 5 5 Well, regardless of the height of the all about the Hillsborough County Tower 6 6 tower, they could mount their antennas at Ordinance and where you can put towers and 7 7 different heights on the tower, they can down where you can't. You know, we have driven 8 8 tilt their antennas until they shrink the these two properties. There aren't a lot of 9 circles a little bit in different areas. 9 places you can put a tower. 10 10 They're not true circles. The coverage Another option that might relieve the 11 11 areas for beginning site for a carrier really need for a tower in this area isn't 12 12 probably comes to having anywhere from eight, necessarily community property. If there is a 13 13 maintenance facility just to the south of ten, 15 sites to it. They're kind of 14 irregular shapes. 14 those tennis courts for the golf course -- we 15 15 This is really just to illustrate the haven't reached out to that company that owns 16 16 idea behind how cell towers work, how coverage that property to see if they would be 17 17 works. And so you can see that you have this interested. 18 big gap in the middle right here. I guess 18 MR. CHESNEY: What about behind the 19 19 library? No? that's Countryway. Yeah. Yeah, that's 20 20 MR. RUIZ: I'm not sure where the Countryway. Yeah. So going down Countryway 21 21 from Linebaugh to the south -library is. 22 22 CHAIRMAN MILLS: Here. Right? MS. WHYTE: It's right up here. Just 23 23 MR. RUIZ: Yes, sir. outside the parameter of our community. There 24 24 is --You have in that general area right 25 there where you have kind of an area that's 2.5 MR. 6	So there is a ton of land up there, all	6	MS. WHYTE: We're right here.
7	as I understand it, all buildable.	7	MR. BARRETT: We're in the red circle,
8	MR. CHESNEY: Yeah. So, I mean, I	8	where West Park Village is, where that red dot

5	happy to evaluate any property that you think you could make work, you know. For whatever	5	MR. RUIZ: Besides, generally speaking, with wetlands what we do is, we'll have an
6	reason, if it does or doesn't work, we can let	6	environmental firm come out, and they'll put
7	you know.	7	little flags in the ground and delineate the
8	MR. CHESNEY: I mean, behind the	8	line, and then we'll have the surveyors come
9	elementary school, we own a tremendous amount	9	out and pick up those spots and draw the line
10	of property that's just wide open field that's	10	on a survey, and then you have to just be
11	easily accessible. But I don't know if that	11	offset 30 feet from any building, like your
12	would really help you for this red.	12	fence, everything has to be 30 feet off of
13	MR. RUIZ: Yeah. When you think about	13	that wetland line.
14	it, the tower has to be in the center point	14	So if you could even look at an area and
15	of the area you want it to provide the	15	you'd kind of know where the wetlands are and
16	coverage to, not I mean, ideally it needs	16	you'd kind of offset 30 feet from that line,
17	to be in the center, it just needs to be	17	then you can kind of figure out, okay, is
18	somewhere in the area.	18	there a space to put a tower or here or not.
19	MR. SHEBANEK: I have a question. I'm	19	And with regards to how much space do we

It's 20 feet wide by 100 feet be harder to do that because we don't have 3 long. 3 that much public right of way. You have 4 4 So we have done irregular shape, we've private right of way. 5 5 done polygons. I mean, we can make it work. So like I did back in 2011, when I came 6 We need square footage. And, again, if we get 6 and spoke to you all, you're going to have 7 7 close to 2,000 square feet, that would be someone who's going to be interested in 8 8 enough ground space to accommodate the tower, putting in poles in the right of way, but 9 9 sublease to the four carriers in the market, yours are going to be way too expensive. 10 have electrical rack, a hand-hold for fiber 10 The landowners, more than likely, are 11 that comes in, those things. 11 going to be looking for some sort of rent for 12 MR. CHESNEY: So, personally, what's the 12 each pole, whereas the House bill that was 13 13 advantage of doing this? passed by the Florida Senate last year doesn't 14 14 MR. RUIZ: What's the advantage of doing require C-Lex pay anything to put poles in the 15 the tower? 15 right of way. 16 MR.CHESNEY: Yeah. I mean, I know we'll 16 So you're going to have carriers 17 get better service. 17 focusing on areas that you have public right 18 MR RUIZ: Obviously, so you'll have 18 of way before they're going to come in here 19 19 better service. There's the revenue stream and pay high dollar rent just to put the pole 20 from the ground income. There's enhanced 911 20 in the ground. 2.1 services. I want to say Hillsborough County 21 You guys aren't going to accept wood or 22 is right around 75 percent of all 911 calls 22 concrete or steel poles. You're going to want 23 23 that are made from a cell phone. decorative poles. So each pole, instead of it 24 As 5G gets rolled out down the road, you 24 costing between twenty and thirty thousand 25 25 guys are in a unique situation, especially dollars, it's going to cost between fifty and Page 34 Page 36 1 1 being a CDD like this, where you own your own to sixty thousand dollars. 2 right of way. Right? Don't you own 2 So you're just going to fall in the list 3 everything but Linebaugh? Doesn't the CDD own 3 of priorities for 5G deployment. And it's not 4 4 it? just your community. It's any community that 5 5 MS. McCORMICK: Yeah -has the same type setup where you don't have 6 6 MR. CHESNEY: We have significant public right of way. 7 7 amounts of right of way. I was going to say Unless the carriers are able to cut some 8 8 that -- that's a good way of saying it. type of a deal with the community, where the 9 9 MR. RUIZ: So as 5G deployment comes community says, "Look, we'll let you come in 10 10 down the pike next year and the years after, hear and do it for free, we just want the 5G 11 you can really expect it to start being rolled 11 service," just you have to follow these types 12 out in 2019 and 2020 and 2021 being the big 12 of requirements. And that's really where 13 13 years of deployment. that's going to go. 14 Florida Senate passed a bill that allows 14 So a tower in this area will aid 5G 15 15 C-Lex (phonetic) to install 40-foot poles in deployment to the extent that they'll be able 16 public right of way. Right? And that's the 16 to put 5G-capable antennas on the tower and at 17 majority of 5G deployment is going to be macro 17 least offer those services to some degree. 18 network, which is the existing network with 18 Now, you won't get the full 5G 19 19 enhancements from small cells. Right? experience, as they like to call it, without 20 20 So in communities -- let's just say, for the small cell in the community, but that's 21 21 example, on Hillsborough -- right? -- you something that's going to have to be addressed 22 22 might start seeing -- every 500 to 750 feet or down the road, but it will give you some 5G 23 23 so, you might start seeing 40-foot poles being capabilities. 24 put into the right of way with antennas on 24 MS. WHYTE: I'm pretty sure this year 25 them. Right? And that's 5G deployment. 25 they sent -- last year, when Linebaugh was dug

6	way down.	6	they're going to have to replace.
7	MR. RUIZ: Now, we got it through	7	They're going to have to swap them out,
8	Linebaugh because it's a public right of way,	8	and they'll get them as close as they can.
9	and they can do that.	9	MS. GRIFFITH: Do you mind can you
10	MS. WHYTE: It's already there.	10	pull up that first map that shows the big red
11	MR. RUIZ: Without having to pay the CDD	11	so looking at our gap, how many small poles
12	or an HOA or whoever any rent to do that.	12	would it take to cover that?
13	CHAIRMAN MILLS: Ms. Griffith.	13	MR. RUIZ: It depends on the degree of
14	MS. GRIFFITH: Thank you. So does it	14	coverage and what the objective is. If you're
15	have to be a tower? Does it have to be a	15	looking for just voice and data, you can
16	pole?	16	probably do Westchase as a whole with four to
17	MR. RUIZ: Yes. Yes. You need to get	17	eight poles, somewhere in that range,
18	the antennas in the air.	18	depending on where they're able to put them.
19	MS. GRIFFITH: Okay. And I'm only	19	But if you're trying to offer high data
20	asking you because I have done a little	20	speeds, the whole idea behind 5G is wireless
21	research. But my understanding is that in big	21	companies want to come in and they want to be
22	cities, New York City right? they have	22	your internet provider, they want to be your
23	sort of a box that's attached to like a street	23	TV company, you know, they want to get rid of
24	light, something to that effect.	24	Spectrum or whoever you have, Frontier or
25	MR. RUIZ: Yeah. That's what we're	25	whoever, they want to not only be able to do
	Page 38		Page 40
1	talking about. That's 5G deployment. Right?	1	that, but at a much higher rate than you can
2	So they put them on 30-to-40-foot poles in the	2	even get through cable right now. Right?
3	right of way.	3	So for that to happen, you have to have
4	MS. GRIFFITH: Okay. So the pole is	4	a very, very dense network to be able to
5	already there. So we can leverage the poles	5	provide that service, and so yeah.
6	that exist now.	6	CHAIRMAN MILLS: Alan, do the green
7	MR. RUIZ: The existing poles, yes.	7	circles, do those poles have all the carriers
8	MS. GRIFFITH: We're not talking about	8	on them?
9	installing 40-foot poles.	9	MR. RUIZ: It varies, but for the most
10	MR. RUIZ: Well, you can leverage the	10	part, yes. That's for example, to the
11	poles you have today, but what you've got	11	southwest there, you have three towers, and so
12	today is probably closer to 20 feet right?	12	you have one pole that has two, and then I
13	25 feet maybe. Right?	13	think each of the other two have one, or maybe
14	So what they would probably do in a	14	another one has two, and another one is a
15	community like this, if you have them close	15	county tower.
16	enough, or maybe they would install	16	The answer is that, for the most part,
17	similar-type poles, they would just have to do	17	yes.
18	more of them.	18	CHAIRMAN MILLS: Okay.
19	Again, the flashlight remember that	19	MR. RUIZ: And we can put together the
20	example? so instead of going 40 feet,	20	information for you, if you like.
21	you're going 25 feet, so they have to be	21	CHAIRMAN MILLS: So just as an example,
22	closer together.	22	so this circle, if I live in that circle, like
23	So they would still have to come in and	23	here, and my neighbor has to be out on his
24 25	cut for example, let's say Verizon wants to	24	lanai behind his house to speak on his phone,
Z 13	deploy in this community. They would have to	25	and I have one har at my house
23	, ,	23	and I have one bar at my house.

Page 49 Page 51 1 1 manage it more efficiently out of deploy of people working from home, this is students and 2 2 fires, station resources, police resources -kids, my son is playing Fortnite all the time. 3 all kind of resources, the best way to deploy 3 Right? And he needs access. 4 them, and you have sensors and cameras and 4 So, you know, it's one of those things 5 5 dimming lights. where it's just going to continue -- right? --6 It's a wonderful thing for a smart city. 6 because it's going to play more and more of a 7 7 That's kind of out there still. That's state role in our lives, and I don't want Westchase 8 8 of the art. to be left with that. I want to be in the 9 9 Best-case scenario for you right now forefront, so --10 is -- the suggestion I would make would be if 10 MR. RUIZ: Sure. Sure. 11 you all would look at the property that you 11 MS. GRIFFITH: -- so if we can -- to 12 12 own and say to yourselves -- right? -your point, you know, if we provide to you 13 13 where -- I mean, make a list of every single that list of candidate sites, and you can come 14 one you have and scratch off the ones that you 14 back -- and I don't know -- maybe this would 15 are absolutely not going to put a tower on, no 15 be a workshop topic at some point, you know, 16 16 matter what, and then what you have left, let as it were. 17 me take those to Verizon and AT&T. 17 CHAIRMAN MILLS: Perhaps, yeah. 18 Sprint and TMobile right now, TMobile is 18 MS. GRIFFITH: The note about timing, 19 19 actually kind of active right now, but they let's look at timing on something like this. 20 20 got their hands full with the merger, those MR. RUIZ: It's going to take a lot, to 21 two are merging, and they're going to have to 21 be perfectly honest with you. 22 kind of shake out who's got coverage where so 22 Typically, for an organization such as 23 23 they'll kind of put development on the back you all's to come up with a location that you 24 burner because they won't want to go after a 24 are comfortable with, it's going to take 60, 25 25 site that TMobile needs because Sprint already 90 days. I mean, does anything think you can Page 50 Page 52 1 1 has coverage there. They're about to merge, do it faster? MR. CHESNEY: No. We're way slower than 2 and they'll have that coverage as soon as that 2 3 3 merger is approved. that, so --4 4 But what I would do is go back to AT&T MR. RUIZ: So let's start with how many 5 and Verizon and say to them, "Look, these are 5 number of days it takes for you all to say, 6 6 -- Westchase is tired of not having hey, what about this spot? All right? Then I 7 7 communications, wireless communications." have to market it to the carriers. 8 Today, I have their ear, and that will perk 8 MR. EDDLEMAN: I was going back to 9 them up. And I'll say to them, "Look, these 9 Mr. Chesney's comment. Why does it take 10 are the properties that we have available 10 longer? You know a location that you 11 right now. How can we maximize the coverage 11 currently own. 12 in that community for your network, AT&T, 12 MR. CHESNEY: Yeah. I mean, plus --13 Verizon?" 13 yeah, if I --14 And then have them give us the answers, 14 CHAIRMAN MILLS: Go ahead, Greg. 15 and I can come back to you with the 15 MR. CHESNEY: So, I mean, we, in theory, 16 information and, say, "Okay, this is where 16 should have a map of our community. I haven't 17 they would ideally like to have a tower of 17 seen it yet. 18 XYI," and I could -- then you guys could 18 MR. LEWIS: We got it. 19 consider those locations. 19 MR. CHESNEY: We got it? It's there? 20 MS. GRIFFITH: Because my thought is 20 Okay. I don't know exactly how complete it 2.1 twofold; you know, one is, we need some 21 is. There might be a few places. I'm 22 reprieve. Right? We need to take care of the 22 assuming it's complete, because we do have 23 gap that exists today. 23 these pocket parks and things like that. 24 But then, you know, the role technology 24 I don't really quite understand how big 25 plays in our lives, you know, we talk about 25 of a spot you need, but, I mean, we can give

Page 53 Page 55 1 1 you that map. And I would think at this want that. He doesn't want us to say, "Here's 2 2 stage, everything is kind of available that we a possible site," and then here six months 3 own, and then we can make some suggestions on 3 later there's a community fight over whether 4 some other areas that, you know, the HOA owns. 4 it's appropriate or not. 5 5 I mean, I happen to know the guy that He sort of wants us to vet it in advance 6 owns the golf course very well. I mean, it's 6 so that he can present it -- if I heard him 7 7 interesting that you had talked about that. correctly -- present it to the carriers as 8 8 Him and I specifically talked about cell phone I've got this site available. 9 9 towers at one time. MR. RUIZ: Yeah. There is not a lot of 10 And I don't want to speak for him, but, 10 sense in picking a spot, getting the carriers 11 you know, my impression was that there was not 11 to approve it, and then when it comes time to 12 12 interest on the cell phones, whoever had sign a ground lease and trying to put it 13 13 contacted him, not on his end. through zoning, you have 500 people show up 14 14 MR. BARRETT: If I can correct you, he and --15 actually came before the WCA and requested a 15 MR. CHESNEY: Well, yeah, like I can 16 cell phone tower probably ten, 12 years ago, 16 think of some locations where, I mean, no one 17 and they got the dramatic thumbs down from 17 even knows, yeah, it's back there. 18 Harbor Links. All of Harbor Links opposed it 18 MR. RUIZ: So it has to be something the 19 19 at the time. That's why it died. community supports. For the community to 20 20 MR. CHESNEY: About where it was? decide that they would be okay with a given 21 MS. WHYTE: Uh-huh. 21 location, if it's CDD property, it needs to go 22 MR. BARRETT: Yeah. 22 through an RFP process. Right? Anything over 23 23 MR. CHESNEY: I don't remember the full value of \$25,000 or something like that? 24 conversation, but --24 MS. WHYTE: No. 25 25 MR. ROSS: But to Bill's question, MR. EDDLEMAN: I guess what I was trying send it to them, he sends it to his attorney, 12 12 to say, Brian, was that basically if you know the attorney reviews it, they get it back. 13 13 the locations that you have available and you We review the comments, we accept some, 14 put those out to the people who are the 14 we make and suggest some changes. We kind of 15 15 technology gurus that can tell you where the go back and forth. You have a conference 16 16 call, you work through all the issues, and you ideal locations are, then they can take it 17 17 from there, boil it down to those that you can sign a lease and that takes roughly 30 days. 18 come back to you guys and through all of us 18 60 days to get it into zoning, because 19 19 and say, "Hey, these are the most likely spots you have to do a survey; then once you have 20 20 from what you provided that you have your survey back of the land, you send it to 21 21 available." the architectural engineering firm for zoning 22 22 And then we can go through the ballot of drawings and you put together the rest of 23 23 who wants it there and who doesn't. your zoning package. 24 MR. ROSS: I hear you. But what I heard 24 You get the support from the carriers 25 the gentleman saying is, he doesn't really 2.5 that you need, operator frequency propagation

Page 57 Page 59 1 1 map to support for the need for the site in tower. So each carrier is going to want 2 2 the area. You submit it into zoning. between 12 or 14 feet of vertical space. 3 Typically they have a 30-day review 3 Right? So let's just --4 4 process, they take every day. They're --MR. EDDLEMAN: We're talking about --5 5 we're generally pretty good about getting a what? -- about six carriers? 6 completeness letter, but if we missed 6 MR. RUIZ: So, right now, you have four 7 7 something or if they want something that options for a cell phone: AT&T, Verizon, R 8 wasn't on the checklist, they let us know. TMobile, and Sprint. And you're about to lose 9 9 They have another 30 days to review, one of those. Sprint is about to get consumed 10 deem it complete. We got to put it on a 10 by TMobile. 11 11 hearing schedule. So we have three days up there for the 12 12 Again, from the time that we sign a carriers to install their antennas. They 13 13 ground lease to the time we have zoning would be anywhere from 12 to 14 feet tall. 14 14 approval and building permits, it would be So you have to consider the lowest bay 15 nine, ten months; and that's from when we had 15 is -- you know, you can't make a tower 100 16 a signed ground lease on approved location 16 feet and then when you put in that third bay, 17 where the lease agreement has been fully 17 the carrier can't make it work. They can't 18 negotiated. 18 get enough coverage for it to be worth 19 19 So this isn't a quick -- this isn't anything to them. 20 2.0 going to happen quickly, no. The slow-down So ideally 130 feet. We can work with 21 will never be on our end. Generally speaking, 21 130. We can get them to -- look, this is what 22 we can turn around a lease, and we can do what 22 you get and make that work. But really 125, 23 23 we need to do quicker, but you guys have a lot 130 feet is really as low as you can go in 24 more people trying to nail down decisions than 24 this type of area. 25 25 we do. And, you know, again, the higher you go Page 58 Page 60 1 1 the better the coverage is going to be, the CHAIRMAN MILLS: Mr. Barrett. 2 MR. BARRETT: In terms of the macro 2 further out it's going to outreach. And when 3 3 towers, how tall are they these days? you look at towers, I can tell you right now, 4 4 MR. RUIZ: So typically speaking, in an as long as I've been doing this, since '97, if 5 5 urban area like this, you would love -- love I take these two different towers, and they 6 6 to put up a 150-foot tower. Carriers -could be 50 feet difference in height, if I 7 7 because what you want to do is, you want to make you stand in the right location, you 8 8 couldn't tell me which one is which. have an ideal amount of vertical space and 9 height for each tower -- right? -- or for each 9 CHAIRMAN MILLS: Mr. Lewis. 10 10 carrier. MR. LEWIS: Thank you. So I thought I 11 11 heard you say earlier, so this would have all If you go, Brian, to the last slide --12 12 no, not last. Five. Go to five. Probably three carriers on it? 13 13 all seen these. The flag pole tag is up on MR. RUIZ: Uh-huh. 14 14 MR. LEWIS: So some of these other ones the tower. Right? This is what we would 15 recommend for a community like this. 15 that they had on their earlier picture with 16 So that's what it looks like at the base 16 the green circles, they only had one? 17 17 without any landscaping. To give you an idea MR RUIZ: So the towers will be built 18 18 of a six-foot-tall PVC fence. We can go to and capable of -- structurally built and 19 eight feet. 19 capable of holding all three carriers. Right? 20 20 MR. LEWIS: Okay. Then if you go to the next slide, we can 2.1 21 MR. RUIZ: I'm just the infrastructure. overdo it with landscaping as well, and that's 22 what it looks like when it matures a little 22 Right? Vertex or any tower building company 23 bit, so it hides the base of the tower. 23 is just the infrastructure. We're just the 24 24 stick in the air. The base will be going back to the 25 25 You still need Verizon to dedicate the previous site. It's says it's a viable-type

Page 65 Page 67 1 1 the radiation outputs, it's perfectly safe. Palm Harbor that we're going to build, but --2 2 CHAIRMAN MILLS: Alan, our good friends so we do them. I personally think if I wasn't 3 at Glencliff understand it's going to be 3 in the tower business, to me, that's the best 4 4 disguised as a tree. That does not look like -- that's it. 5 5 a tree. Can you address that for them, Like, nowadays, they make them a little 6 please? 6 thicker. That's a 36-inch. Everyone is going 7 7 MR. RUIZ: Sure. There are tree poles to 48-inch now, just to get more inside. I 8 8 out there. We can take -- okay. So if you personally like it without the flag and 9 9 look at this tower, the first hundred and without the ball at the top, and it's just a 10 probably ten feet -- it's 150-foot tower. 10 white stick. And that's all you see in the 11 Right? The 110 feet or 100 feet of it is just 11 distance is a white stick. 12 a mono-pole-type tower. It's just a steel 12 CHAIRMAN MILLS: Bill, does that change 13 13 pole, like a light pole. your residents' petition any? 14 14 And then at the very top of that, you MR. EDDLEMAN: No. I think the whole 15 have a wagon-wheel-type looking structure with 15 issue of the appearance of it is something 16 a spline in the middle, which is just a pole 16 that until such time as a concrete discussion 17 that goes straight up, and then you put covers 17 takes place and something is going to happen, 18 -- and the antenna is attached to that pole 18 it's a little premature to speak for them. 19 19 and then you put covers around that, and it However, I can say that speaking to the 20 20 looks like one seamless pole. Right? EMF, they -- and I want to be the first to 21 Well, if you take the bottom portion 21 admit that I'm not technically qualified to 22 22 out, just the mono-pole portion, and you just talk about this, nor much of anything else. 23 23 make it taller, you can paint it brown and But the EMF signal, as I understand it, 2.4 attach branches to it. But, ultimately, me 24 the closer you are to the tower, the lower the 25 25 personally -- and the carriers like that amount of signal. Page 66 Page 68 1 1 MR. RUIZ: Yeah, so it does a rainbow better, because they can get exterior antennas 2 that they can hide in the branches, and so 2 effect. Right? When it comes out, the signal 3 3 exterior antennas allow them to put more -- yeah, if you're right under it, you're not 4 4 antennas up and allow them to put their radio getting as much. 5 5 units up next to the antennas instead of down MR. EDDLEMAN: From what I understand, 6 6 with their ground equipment, which is what the power necessary to transmit to the outer 7 7 they'll do have here. I think for performance edges of the array, if you will, is lessened 8 8 in the closer it is to the home owner's use. reasons they prefer them high. 9 So they prefer the tree poles. So what 9 MR. RUIZ: No. No. Your best signal is 10 10 I have found is, aesthetically, you might probably 200 feet away from the tower. If you 11 think you want one until you see one and you 11 think about it, you have to boost it out. 12 12 drive by everything, and it looks like a baby Think of your hose. When you just push your 13 13 bottle brush. hose straight out like this, power goes 14 14 MR. BARRETT: It really looks -- they straight out, and it just kind of rainbows 15 have one in south Tampa. It's the ugliest 15 down and it falls, and then draw that circle 16 thing you have ever seen. 16 around you. 17 17 MR. RUIZ: The one on Dale Mabry, I live MR. EDDLEMAN: Okay. 18 18 around the corner from that one. We call it MR. RUIZ: And so as you get further 19 Charlie Brown's brown Christmas tree. So the 19 away from the tower, you get the rate of 20 20 branches fall off -- they don't harm anything, the -- the strength of the radiation. It 2.1 you know, but they do, they fall off. The 21 drops at an inverse proportional rate, so it 22 paint chips, and you have to stay on top of 22 drops very, very fast. 23 the maintenance, which is fine, and we do. We 23 MR. EDDLEMAN: So we have other 24 24 residents from Glencliff here that can maybe got tree poles. 25 25 speak to what their thoughts are. In fact, we just got one approved in

Page 73 Page 75 1 1 that's the right term either -- but things your phone outside but you can't use it 2 2 along the light pole, would that even be like inside. 3 icing on the cake for us? 3 And then the other problem you have is 4 4 MR. RUIZ: It may be. It may be. And I the carriers only have so much bandwidth on 5 5 wouldn't to speak to them, but I would be glad the frequencies that they're allowed to 6 to go and speak to them on your behalf and --6 operate on. They're each assigned -- well, 7 7 I can open the lines of communications between they each purchase certain parts of the 8 8 you all directly, if you like. spectrum. 9 9 MR. ROSS: Before I relinquish the And so they -- just look at the spectrum 10 10 that they own as a tube. Right? That only floor, I did want to raise what Greg alluded 11 to earlier. We do have the site up near the 11 so much water can pass through that tube, so 12 12 library. Nobody has figured out any use of that tube will hit maximum capacity. Right? 13 13 that at any point that I've ever heard of. If you have a bunch of towers covering 14 14 Is it worth throwing -- he said if smaller areas versus one tall one covering the 15 you've got a site, throw it at me, and I can 15 entire area, each tower can re-use that amount 16 16 tell whether it's doable within the framework of spectrum. 17 of what you're talking about. 17 Let's just say, for example, Verizon has 18 MR. CHESNEY: I can think of a few 18 from 1910 to 1980 megahertz. Right? They can 19 19 others. I'd like to talk to Doug first about use that 70 megahertz of spectrum, they can 20 20 some of my thoughts. use it in this circle, in that circle, in that 21 CHAIRMAN MILLS: We'll wrap this up with 21 circle, and they'll have that much more 22 22 capacity to be able to provide -- so for a couple more questions. 23 Ms. Griffith, did you have another 23 example, when you're trying to download a 24 comment or question? 24 video, it may not be that you don't have 25 25 MS. GRIFFITH: Yeah. So -- and I guess coverage, it might be -- and it's not Page 74 Page 76 1 1 downloading, it might be that there is no maybe it fits somewhere to where Mr. Ross is 2 2 going. capacity because you're sharing that pipe 3 3 with 500 other people also trying to download But it just seems to me, on one hand, 4 4 I'm hearing that there is an appetite for the videos. 5 5 Westchase market, yet there is coverage in Now, if there were five towers, and each 6 6 Westchase. It just is not ideal. one of them covering the equivalent of 100 7 7 So to what extent do we improve what we people, now you're only sharing with 100 8 8 have? Right? So if we have towers that only people. So the download happens very fast of 9 have one -- you know, AT&T or whatever --9 the video. So you're not sitting there 10 10 MR. RUIZ: Uh-huh. waiting for that little circle to stop 11 MS. GRIFFITH: -- how do we improve 11 spinning. 12 12 that? So you have better capacity and you have 13 13 MR. RUIZ: The more towers you have, the better in-building coverage. Those are the 14 14 more -- the stronger the signal. Right? two answers. 15 So let's just, for example, let's say 15 MS. GRIFFITH: So, because what I'm 16 you have 300-foot tower and you put the 16 hearing with this pole, that this is like the 17 17 antennas at 300 feet and you have no down mack daddy. All right. And we have seven 18 18 tilt. In fact, you up-tilt them. Right? You poles that already exist. If those were seven 19 can cover a five-mile radius -- right? -- in 19 mack daddy --20 20 MR. RUIZ: They are. They're all seven that area. Carriers, for one, your signal strength, 2.1 21 macro sites. And, again, I can't speak to 22 once you start getting further out is going to 22 each carrier as to what they're using them 23 weaken. So what they refer to as in-building 23 for and who's on each one of them, but that's 24 24 coverage will go away. Right? You'll have how you have coverage outside is from that outdoor coverage. This is where you can use 25 25 right now.

Page 77 Page 79 1 1 involved. What you're trying to do is get 2 2 in-building coverage so that your phone works MR. EDDLEMAN: I appreciate you all 3 in here. I bet you right now, if you plug in 3 taking the time. And then only one thing I'm 4 4 your phone and try and download a video from going to add to what you're saying, if it's 5 5 You Tube, you can't. Right? And there's two possible, if at some point when you do get 6 reasons for that. There's a signal strength 6 this site plan to the tower folks, if we can 7 7 can't penetrate because you're starting from have some sort of an idea of a time line. 8 8 too far away and not you're inside a block You know, I know it's kind of pie in the 9 9 building -- right? -- or you could be -- there sky, it will be a SWAG at best, but maybe you 10 could be a tower close enough by where it's 10 could have some sort of time line, so that way 11 not working -- I mean, I'm sorry -- where 11 we know whether it's a nine-month process or a 12 12 you're close enough to the tower where you ten-year process, something along those lines. 13 13 think it will work, but there is not enough CHAIRMAN MILLS: I think we need to be 14 14 capacity because it's there just 500 people further down the road to identify that. 15 hitting the same site, trying to stream video 15 MR. RUIZ: What I would suggest is, if 16 16 or whatever. you could just give me the list of your 17 MS. GRIFFITH: Okay. 17 properties and X off the ones that you just 18 CHAIRMAN MILLS: Okay. So what I'm 18 know are absolutely not going to use. 19 19 hearing is that we want to identify potential You don't need to come to an agreement 20 20 on which ones are yeses. Just swipe off the sites on properties that the CDD owns, that 21 staff and the folks from Vertex can look at 21 ones that are no, the untouchables. Right? 22 and evaluate. Right, Alan? 22 Let us review those from an RF point of 23 23 MR. RUIZ: Yes, sir. view, let us reach out to Verizon, AT&T, and 24 CHAIRMAN MILLS: And figure out, you 24 then I can maybe come back to you and say, 25 25 know, from what I'm hearing, what's the best "Okay, you know what, there is an interest in Page 78 Page 80 1 1 overlay to that map that fixes problems so the following four." Right? 2 that this woman can work from home, and I can 2 And then at that point you guys can 3 3 work from home, and everybody can work from decide, "All right, are we willing to do 4 4 home -- Sonny, too, maybe, if possible. anything on these four?" 5 5 You always work from home. What are you CHAIRMAN MILLS: Okay. 6 6 talking about? And then come back to us and MR. RUIZ: But it's key to get their 7 7 make further recommendations, and if we need input for it. 8 8 to tackle this in a workshop for this spot, CHAIRMAN MILLS: Yes, ma'am. You have 9 9 not that spot, this park, not that park, to something? 10 10 your point, Mr. Ross, we're not going to solve MS. KIELY: Hey, Danielle Kiely, 11 11 that today. 9410 Edenton Way in Glencliff. And, yes, I'm 12 12 probably the biggest complainer about cell Anyway, I do appreciate you guys coming 13 13 service in Glencliff. in and partnering with us to figure this out. 14 As you can see, there is a need and perhaps 14 What I can tell you is, in going around 15 15 finally the appetite because of the and getting signatures and talking to all the 16 16 neighbors, I've only lived in Westchase for technological advances even in the last ten 17 17 years, and the home-based demand for this that two years. So I understand the history with 18 maybe didn't exist to that extent or was 18 Harbor Links and the rumors of "We don't want 19 19 a cell tower in the golf course or" -- I get fully understood to that extent ten years ago. 20 Right? 20 all that. 21 21 MR. RUIZ: Uh-huh. But, in Glencliff, generally speaking, 22 22 CHAIRMAN MILLS: And certainly the everyone is willing to probably attest to this 23 23 folks, we appreciate your feedback and input. as well, people aren't opposed. 20	MR. BARRETT: We did. We could have	20	
21	probably gotten it a little cheaper. I just	21	MS. WHYTE: So access, I have got you guys, the five board members are set up right
22	went with a carrier that we had.	22	now. I have to give you passwords. I have to
23	We ended up our issue is the alcohol	23	create a password because we want to keep it
24	policy because we have so many people show up.	24	as generic not generic, but so that it's
25	We have a beer truck there, and then that	25

2	CHAIRMAN MILLS: Okay. Is that it,	2	that that computer is accessible to anybody
3	Erin?	3	sitting in that position.
4	MS. McCORMICK: Yes.	4	So I'll create some passwords, I'll give
5	CHAIRMAN MILLS: Okay. Thank you. All	5	them to each one of you, then you guys have
6	right. Are you ready, Sonny?	6	your access to this basic map.
7	MS. WHYTE: So this is basically the GIS	7	CHAIRMAN MILLS: There's nothing that we
8	map that we have received from Stantec that we	8	can change on this. It's view only. Right?
9	have been working at. It is layered. I	9	MS. WHYTE: I think we can change

11	Most of you know I was away for two	11	CHAIRMAN MILLS: "We" being
12	weeks. So I typed in "The Shires" and ended	12	MS. WHYTE: No, I don't recommend you
13	up in England. So I think the suggestion is,	13	guys do it, but, yes, it is open to and
14	is that I'm going to speak to them about	14	that's what I have to figure out. I have to
15	parameters, breaking it down and just bringing	15	talk to her on this. I had a brief
16	it into, you know, get rid of everything else.	16	conversation with her today. Let's just go
17	We don't need that.	17	here.
18	In case any board member decides that	18	CHAIRMAN MILLS: So should we all have
19	they would like to go into it	19	the same password?
20	MR. CHESNEY: So can we access this?	20	MS. WHYTE: No, I don't think so.
21	MS. WHYTE: I just I was just reading	21	MR. ROSS: But to Jim's point, some of
22	her email I asked her this afternoon and	22	us are knuckleheads, and I don't want to
23	we have ten users on our contract.	23	accidentally do something that changes
24	We have ten users on our contract, and	24	something. I want to be blocked.
25	we have used up, myself and Doug, our office	25	MS. WHYTE: Okay. I will mention that

2	MR. CHESNEY: But I do want to I want	2	MR. BARRETT: You can make it bigger by
3	to test it. Like, I want to think of all	3	going up to the plus sign in the upper left.
4	these little pieces of property over the years	4	MS. WHYTE: Upper left?
5	that I can remember that we accumulated or is	5	MR. BARRETT: Your other left.
6	there, I want to see if it shows up.	6	MS. WHYTE: My other left? Hold on.
7	MS. WHYTE: Okay. So, right now, what I	7	Where's my pointer? I've lost my pointer.
8	have done is, I have left off the CDD boundary	8	Oh, yeah, there it is. Hold on. I've
9	and the wetlands, and that is what you see	9	lost my pointer come back. Where did you
10	right now. Hold on, I think I left the golf	10	go? Oh, there you are. I'm sorry. I'm still
11	course yes, I left the golf course. Let me	11	a little jet lagged.
12	delete the golf course.	12	Okay. So there's the two houses right
13	CHAIRMAN MILLS: Okay.	13	here Greg was referring to. They actually own
14	MS. WHYTE: So that's the boundaries,	14	a lot of the area, but there is a lot between
15	and our wetlands, the shaded areas. Okay.	15	the two. I'll define that, and I'll double
16	CHAIRMAN MILLS: Okay.	16	check to make sure, Greg.
17	MS. WHYTE: So, as far as I know, they	17	MR. CHESNEY: Yeah, but I'm confident
18	went according to and, again, we Doug	18	I don't want to say it wrong, but I think we
19	and I haven't gone over it today, but I had	19	actually own that lot. I think it's an actual
20	the pleasure of working on this while we were	20	separate lot, and I'm confident because I
21	setting it up. Matt was with us.	21	I'm going from memory, but I remember
22	They actually went on the Hillsborough	22	saying

7	MS. WHYTE: We were just talking about	7	CHAIRMAN MILLS: Mr. Ross.
8	that, Greg.	8	MR. ROSS: On the issue that we're
9	MR. CHESNEY: Is that in there? Did	9	talking about, I personally would advocate
10	they pick up on that?	10	that we not only track properties in which we
11	MR. LEWIS: The other thing, too	11	have a fee interest, but also if we have an
12	MS. WHYTE: Yes, there's well, Greg,	12	interest less than the whole fee, such as an
13	it is not ours. It technically belongs to the	13	easement, because the reality is, if we have
14	two property owners that are on either side.	14	an easement on some property and we're not
15	MR. CHESNEY: But we have an easement.	15	monitoring, being aware of it, you can

MS. WHYTE: - ponds, just the basics 14 So if in the future we're talking about like where the Burger King is, do we maintain MR. CHESNEY: I can go here, like that's 16 that? What are our obligations to do lit? Why do we do it, that kind of thing? MR. CHESNEY: Yeah. So like I guess 19 that Baybridge Park has to be that color. So 19 so we could keep going on this. So like over these are wetlands. 20 there near Davidsen, do we actually own that wetlands 21 mk. CHESNEY: Yeah. But then also, even the back here behind Stockbridge, we own that lake now. 23 mot sure. I didn't 24 MS. WHYTE: It's right there. 24 MS. WHYTE: No. They went above it. 25 mot sure. I didn't 25 MR. 14	MS. GRIFFITH: It's pretty slick. So it	14	what I've sent out in the past couple years, is
15	is not only active, but you guys did it pretty	15	just a summary of payroll over, you know,
16	quickly and didn't break the bank doing it.	16	several years to give an idea of where we've
17	So I say kudos, and, you know, more than	17	been, where we are, how we've progressed along
18	in the right direction, and so I yeah, I	18	the way so you guys can get an understanding
19	think this is fantastic.	19	of where all of our payroll levels are, you
20	MR. LEWIS: I will say, being at the	20	know, kind of how you have been handling the
21	meeting, and I'm not going to take any credit	21	compensation aspect.
22	for it because Sonny was definitely the driver	22	Yes, sir.
23	of that bus, and the two people from Stantec	23	MR. ROSS: In the past, my recollection,
24	were really, really good.	24	Greg, is that you've tackled this issue, and
25	They were very open and receptive, and	25	you've made recommendation to the board as to
	They were very open and receptive, and		,
	Page 110		Page 112
1	then also, you know, they knew where to steer	1	how to balance the issue of climbing salary
2	us, you know. This is what you're probably	2	and balancing that against either a holiday
3	going to want and what you need so yeah,	3	bonus or year-end bonus, or whatever you want
4	very good. Good job.	4	to call it. I'd welcome your take on it and
5	CHAIRMAN MILLS: Very good.	5	your suggestions.
6	MS. GRIFFITH: So I do need to leave in	6	MR. CHESNEY: Sure. Well, I mean, I
7	about ten minutes.	7	have a specific suggestion on the payroll.
8	MS. WHYTE: Okay. Are we okay with	8	Just I think that Doug and Sonny are kind of
9	this? Are you comfortable with it?	9	at the top end of the payroll. So I always
10	CHAIRMAN MILLS: Yes. Great start.	10	look to the CPI so which is 2.1. So I
11	MS. WHYTE: Please, please email me any	11	would recommend two percent there.
12	of your notes.	12	And then on our two lower paid
13	CHAIRMAN MILLS: Great start.	13	employees, as I mentioned personally, I would
14	MS. WHYTE: Thank you. All right.	14	like to see them have a higher wage. They do
15	CHAIRMAN MILLS: Thank you. Manager's	15	get overtime, eight hours a week on average,
16	report.	16	but I would recommend five percent salary
17	MR. MENDENHALL: Okay. I have a couple	17	increase for the two lower paid employees.
18	items. The first item I have is, I emailed	18	And then, you know, the bonus is always
19	out yesterday, and I have copies if anybody	19	very subjective. You know, last year, and in
20	needs any, of the and this is the time of	20	the last two years, we've given fairly high
21	the year that we go through our review process	21	bonuses. But Doug and Sonny especially have
22	with employees. Doug does all of his staff, I	22	done especially a large amount of work with
	do all of my staff, which is Doug basically.	23	the parks. They always do, in my view, an
23	, ,		
23 24	And so we have gone through that	24	excellent job.
		24 25	excellent job. But if you were to ask me, and I thought

	Page 113		Agenda Page 33
			Page 115
1	about, you know, writing this out or whatever,	1	MR. CHESNEY: No, that's not my
2	if you were to ask me I would just say, like,	2	intention at all.
3	a five percent across the board bonus for each	3	MR. MENDENHALL: Okay.
4	employee, and that would be my	4	CHAIRMAN MILLS: Have we done that in
5	MR. ROSS: All four of them?	5	the past?
6	MR. CHESNEY: All four. That would be	6	MR. CHESNEY: I know we did it, we've
7	my suggestion, if I were to make a motion.	7	done it in the past, I don't remember doing it
8	CHAIRMAN MILLS: Is that a motion?	8	last year, but whatever.
9	MR. CHESNEY: Sure.	9	MR. MENDENHALL: I'm pretty sure at
10	MR. ROSS: Thank you.	10	least as long as I have been here, we have
11	MR. CHESNEY: I mean, we already have	11	done that way.
12	fairly highly paid employees. We would	12	MR. CHESNEY: No, that's not no, it's
13	definitely continue that. Even our lower end	13	not. Net gross.
14	employees would be above market.	14	MR. MENDENHALL: Okay.
15	But one of the two has been here an	15	MS. GRIFFITH: So a couple things. So
16	extremely long time, and I mean, I don't want	16	the CPI, the two percent, where do we get
17	to speak for Doug, but I know firsthand that	17	that?
18	he could see him eventually maybe even taking	18	MR. CHESNEY: Government. I just happen
19	over for Doug possibly.	19	to know it. I mean, I didn't look it up
20	And the other one, who I won't comment	20	specifically for this month, but I track it
21	publicly since I'm on the record, but Doug	21	fairly often.
22	hadn't fired him and	22	MS. GRIFFITH: Okay.
23	So, you know, he is able to work	23	MR. CHESNEY: I mean, I want to say the
24	independently, and he does what you ask him,	24	last time I looked at it, it was 2.1. Give me
25	and he works hard.	25	a second, it will come in.
	Page 114		Page 116
1	MR. ROSS: I'll second your motion.	1	CHAIRMAN MILLS: If we had cell service,
2	CHAIRMAN MILLS: So the motion is five	2	we could this look this up.
3	no. I'm sorry two percent salary for	3	MR. MATTHEWS: Can I ask a question,
4	staff, five percent for the workers?	4	Doug? Did you say that somebody was let go?
5	MR. CHESNEY: Well, two percent for Doug	5	Did I understand
6	and Sonny specifically, and five percent for	6	MR. MAYS: No.
7	the other two.	7	MR. LEWIS: Maybe I misunderstood. I'm
8	CHAIRMAN MILLS: For the other two.	8	not trying to bring it up
9	MR. CHESNEY: The other two.	9	MR. CHESNEY: No. I meant just he
10	CHAIRMAN MILLS: And straight line five	10	hadn't let him go. It's a reigning joke.
11	percent merit bonus for all.	11	Okay.
12	MR. CHESNEY: All.	12	MR. MATTHEWS: Okay. Okay.
13	CHAIRMAN MILLS: Okay. Any discussion?	13	MR. MAYS: We're just saying that he is
14	MS. GRIFFITH: Yes. I want to talk	14	a good employee, but is he somebody that can
15	about the holiday bonus.	15	possibly run the community or take over?
16	MR. MENDENHALL: Okay. Can I just have	16	He's a sharp employee. He's not that
17	a clarification? For the bonus, typically we	17	type of material.
18	go with the five percent is	18	MR. CHESNEY: Yeah.
19	MR. CHESNEY: Off of base salary.	19	Let's see. CPI is August it was .2
20	MR. MENDENHALL: Yes, but also it is the	20	so, I mean, it all depends on what month
21	net amount is five percent. That's typically	21	you look at it. Last month it was actually on
22	what we have done in the past.	22	chart for 2.7 percent. It was 2.2 the month
23	MR. CHESNEY: Net amount.	23	before. I'll still stand by my motion of two
	MR. MENDENHALL: Yes. So you gross it	24	and five, but yeah.
24	TING TIENDENTIALES TOS. SO YOU GLOSS IC		
24 25	out to consider the tax aspect.	25	MS. GRIFFITH: Okay. So

	Page 117		Agenda Page 34 Page 119
1	MR. CHESNEY: That's actually higher	1	MR. LEWIS: I agree, in part, with what
2	than I thought it was.	2	Ms. Griffith said. I actually do like a small
3	MS. GRIFFITH: Yeah. So I guess my head	3	holiday bonus personally, but I do favor a
4	honestly went to three percent for an increase	4	more merit-based bonus being a little bit
5	to just sort of keep pace, but and then,	5	larger.
6	you know, I'm okay with the five percent on	6	You know, I think what we've done in
7	the merit bonus.	7	line with the 500, somewhere in there, 1250,
8	I just am not a fan of holiday bonuses,	8	I'm okay with for the holiday. But that's my
9	period. So I think I'm just a strong believer	9	thoughts on it.
10	in paying for performance. And, to me, a	10	MS. GRIFFITH: When does the merit bonus
11	merit bonus is that, it's based on	11	get paid?
12	performance. Right?	12	MR. MENDENHALL: Usually sometime
13	There are some years where we're asking	13	shortly after this meeting, and we do it
14	them to do a lot of work, building new parks,	14	retroactively to the beginning of the fiscal
15	yada, yada. Other years it's BAU, business as	15	year, which would be October 1.
16	usual. All right. And so I think the merit	16	MR. CHESNEY: The salary increase part.
17	bonus is where we compensate them for that.	17	MS. GRIFFITH: Okay.
18	The holiday bonus, to me, honestly, I	18	MR. MENDENHALL: Yeah. And then the
19	just don't think it's a responsible thing for	19	holiday would be somewhere in December
20	us to do. We just decide whether or not we	20	typically.
21	think that there's going to be a holiday	21	MS. GRIFFITH: Okay.
22	bonus. Right? There's nothing tied to that.	22	MR. CHESNEY: Give me a second. You
23	MR. CHESNEY: Yeah.	23	work a 40-hour work week, Sonny?
24	MS. GRIFFITH: So I can be okay with the	24	MS. WHYTE: Uh-huh.
25	five percent merit bonus, which looks like	25	MR. CHESNEY: And getting rid of the
23	Tive percent ment bonus, which looks like	23	MR. CHESIVET. And getting his of the

But I would my thought is that we	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	holiday, I mean, especially in Sonny's case, that's a significant percentage. MS. GRIFFITH: Percentage. MR. CHESNEY: Because you figure approximately 47,000, 1250, that's like six percent. So, I mean, I'm just you know, the holiday bonuses, I'll tell you the history of that. That has been here since before I got here. I mean, that was here from back when we had 60 employees, or whatever it was, 45 employees, and they used to be a lot smaller. And what happened was, I mean, I want to say they were like 250 each, or something like that, and as Doug and Sonny shined right out of the bag, our fellow some of our fellow supervisors remember, we had ten people on at that time a lot of them, you know, would use that as a as a way to garner more

MENDENHALL: Depends on the year, yeah. MR. CHESNEY: And I look at it, it's 2.two percent is the CPI for the trailing 12, as of September 13th. MS. GRIFFITH: Okay. Okay. So I guess I just may meet in the middle at two and a half percent. But but, yeah, my thought was, you know, I'm, again, okay with a slightly higher merit bonus because I do know they have done good work this year. And I don't know that we asked a whole lot this year, compared to building parks. But, you know, we did have a hurricane, and I know that we compensated the staff for that. But I would my thought is that we scrap the holiday bonus and we wrap it into	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	holiday, I mean, especially in Sonny's case, that's a significant percentage. 1	MR. CHESNEY: Yeah, well, it's always	1	maintain the holiday day bonuses of 1250 for
2	two motions.	2	Doug and Sonny and 500 for our field
3	MR. ROSS: Okay. And so what we've done	3	employees, Lavon and Christian.
4	before then is a motion to do the salary	4	MR. ROSS: I'll second that.
5	increase and what's called the merit bonus.	5	CHAIRMAN MILLS: Okay. Discussion.
6	Right?	6	MS. GRIFFITH: I prefer it all to be
7	MR. CHESNEY: Yeah, correct.	7	merit based, so I just and I think that
8	MR. ROSS: And I call for the question	8	with, you know, the five percent merit bonus,
9	on the motion.	9	I think that that
10	CHAIRMAN MILLS: Okay. So to reiterate,	10	MR. CHESNEY: I'm going to tell you, I
11	five percent for Doug and Sonny, five percent	11 12	actually many years ago also tried to get rid
12 13	for everybody?	13	of these holiday bonuses. I mean, where I
14	MR. CHESNEY: Five percent bonus across	14	struggle with now, to be frank, is mostly I
15	the board, five percent salary increase for the two field employees	15	mean, if you do that, that's so you have to
16	MR. MAYS: Lavon and Christian.	16	give a much higher merit bonus, especially in Sonny's case.
17	MR. CHESNEY: and two percent for	17	MS. GRIFFITH: You don't have to.
18	Doug and Sonny.	18	Right? Because this isn't guaranteed money,
19	CHAIRMAN MILLS: Okay. And that motion	19	it's not obligated.
20	has been seconded. So let's address that, and	20	MR. CHESNEY: Well, I mean, just because
21	then we'll attack the holiday bonus.	21	it's as a percentage.
22	Any further discussion on that?	22	MS. GRIFFITH: So here's what I'm asking
23	MS. GRIFFITH: Sorry. Can you repeat it	23	for, is for us to shift our thinking. Put the
24	again?	24	numbers aside, put the history aside. Really,
25	CHAIRMAN MILLS: Go ahead, Greg.	25	what is the value of the position, and how do
	critical way rizers. Go diredd, dreg.		what is the value of the position, and now do
	Page 122		Page 124
1	MR. CHESNEY: I'm sorry. Two percent	1	we drive performance? Because, to me, again,
2	salary increase for Doug and Sonny's	2	to just write a check simply because it's the
3	positions; five percent for the field	3	holidays is not a responsible thing for this
4	positions; and a five percent across the board	4	board to do. That's my thought.
5	bonus for all four positions.	5	CHAIRMAN MILLS: Mr. Ross.
6	CHAIRMAN MILLS: Merit bonus.	6	MS. GRIFFITH: So hold on a second.
7	MR. CHESNEY: Merit bonus.	7	So, again, I'm sort of challenging the board
8	CHAIRMAN MILLS: All in favor.	8	to really stretch your thinking, guys.
9	(Board members signify all in the	9	This is this is one of those things

12	MS. GRIFFITH: I would like to see two	12	it's that time of the year, all right, let's
13	and a half percent.	13	just check that box and let's just go home.
14	CHAIRMAN MILLS: So that's an opposed.	14	Let's think about this, because here's
1 -	Mr. (UILLI H. An annoced	15	the thing, we know we have super-talented

I passed along his information to Sonny 16 to reach out to get some more of the specifics 17 from our website to him. 18 In addition, I looked at that as kind of 19 a first step. In addition, I mentioned last 19 month that we have two firms that basically do 20 an audit of the website, so they can kind of 21 take it to that next step. 23 And then, finally, the last step would 24 be if you had Some sort of changes that needed 25 to be made, and then we'd obviously find a 10 Firm that would do that, whether it's one 20 of these consultants that we use. 31 I know Sonny had mentioned, talking just 32 before the meeting, that she had heard some 33 information from the website company not we had before the meeting, that she had heard some 34 I know Sonny had mentioned, talking just 35 before the meeting, that she had heard some 36 information from the website company that we 37 work with, that they were not as concerned 38 about the ADA stuff based on some information 39 that they had, and I got Sonny to forward that 10 on to myself and Erin to look at it. 11 CHAIRMAN MILLS: Okay. 12 MR. I know Sonny had mentioned, talking just before the meeting, that she had heard some information from the website company that we work with, that they were not as concerned about the ADA stuff based on some information that they had, and I got Sonny to forward that on to myself and Erin to look at it. CHAIRMAN MILLS: Okay. MS. WHYTE: Oh, definitely. MR. MAYS: Yes, definitely. MR. CHESNEY: So, in general, I don't look at your time slips. I mean, I look at the overall payroll, so you're not billing for 60 hours. CHAIRMAN MILLS: Okay. MS. WHYTE: Oh, God, no. No. No, I would never. To this day, I have not billed for overtime. CHAIRMAN MILLS: Okay. MR. MENDENHALL: So more to come is the short answer, but it's a work in progress, and we should have some more details shortly, so — MR. MENDENHALL: And that's all I had today. MR. CHESNEY: Can I ask Andy for one thing? MR. MENDENHALL: Yes. Page 132 I'll be blunt. You're not going to like — I mean, you even it all out somehow with you two. MS. WHYTE: Oh, definitely. MR. To Board of Supervisors Westchase Community Development District 210 N. University Drive, Suite 702 Coral Springs, FL 33071

We are pleased to confirm our understanding of the services we are to provide Westchase Community Development District, Hillsborough County, Florida ("the District") for the fiscal years ended September 30, 2018, 2019, and 2020. We will audit the financial statements of the governmental activities and each major fund, including the related notes to the financial statements, which collectively comprise the basic financial statements of Westchase Community Development District as of and for the fiscal years ended September 30, 2018, 2019, and 2020. In addition, we will examine the District's compliance with the requirements of Section 218.415 Florida Statutes. This letter serves to renew our agreement and establish the terms and fee for the 2018 audit.

Accounting standards generally accepted in the United States of America provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement the District's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the District's RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The following RSI is required by generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

- Management's Discussion and Analysis.
- 2) Budgetary comparison schedule

Audit Objectives

The objective of our audit is the expression of opinions as to whether your financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Our audit will be conducted in accordance with auditing standards generally accepted in the United States of America and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and will include tests of the accounting records of the District and other procedures we consider necessary to enable us to express such opinions. We will issue a written report upon completion of our audit of the District's financial statements. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or add emphasis-of-matter or other-matter paragraphs. If our opinion on the financial statements is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or issue a report, or may withdraw from this engagement.

We will also provide a report (that does not include an opinion) on internal control related to the financial statements and compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements as required by *Government Auditing Standards*. The report on internal control and on compliance and other matters will include a paragraph that states (1) that the purpose of the report is solely to describe the scope of testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control on compliance, and (2) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. The paragraph will also state that the report is not suitable for any other purpose. If during our audit we become aware that the District is subject to an audit requirement that is not encompassed in the terms of this engagement, we will communicate to management and those charged with governance that an audit in accordance with U.S. generally accepted auditing standards and the standards for financial audits contained in *Government Auditing Standards* may not satisfy the relevant legal, regulatory, or contractual requirements.

Examination Objective

The objective of our examination is the expression of an opinion as to whether the District is in compliance with Florida Statute 218.415 in accordance with Rule 10.556(10) of the Auditor General of the State of Florida. Our examination will be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and will include tests of your records and other procedures we consider necessary to enable us to express such an opinion. We will issue a written report upon completion of our examination of the District's compliance. The report will include a statement that the report is intended solely for the information and use of management, those charged with governance, and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or add emphasis-of-matter or other-matter paragraphs. If our opinion on the District's compliance is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the examination or are unable to form or have not formed an opinion, we may decline to express an opinion or issue a report, or may withdraw from this engagement.

Other Services

We will assist in preparing the financial statements and related notes of the District in conformity with U.S. generally accepted accounting principles based on information provided by you. These nonaudit services do not constitute an audit under *Government Auditing Standards* and such services will not be conducted in accordance with *Government Auditing Standards*. The other services are limited to the financial statement services previously defined. We, in our sole professional judgment, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

Management Responsibilities

Management is responsible for compliance with Florida Statute 218.415 and will provide us with the information required for the examination. The accuracy and completeness of such information is also management's responsibility. You agree to assume all management responsibilities relating to the financial statements and related notes and any other nonaudit services we provide. You will be required to acknowledge in the management representation letter our assistance with preparation of the financial statements and related notes and that you have reviewed and approved the financial statements and related notes prior to their issuance and have accepted responsibility for them. In addition, you will be required to make certain representations regarding compliance with Florida Statute 218.415 in the management representation letter. Further, you agree to oversee the nonaudit services by designating an individual, preferably from senior management, who possesses suitable skill, knowledge, or experience; evaluate the adequacy and results of those services; and accept responsibility for them.

Management is responsible for designing, implementing and maintaining effective internal controls, including evaluating and monitoring ongoing activities, to help ensure that appropriate goals and objectives are met; following laws and regulations; and ensuring that management and financial information is reliable and properly reported. Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles, for the preparation and fair presentation of the financial statements and all accompanying information in conformity with U.S. generally accepted accounting principles, and for compliance with applicable laws and regulations and the provisions of contracts and grant agreements.

Management is also responsible for making all financial records and related information available to us and for the accuracy and completeness of that information. You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, (2) additional information that we may request for the purpose of the audit, and (3) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence.

Your responsibilities include adjusting the financial statements to correct material misstatements and for confirming to us in the written representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws, regulations, contracts, agreements, and grants and for taking timely and appropriate steps to remedy fraud and noncompliance with provisions of laws, regulations, contracts or grant agreements, or abuse that we report.

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying and providing report copies of previous financial audits, attestation engagements, performance audits or other studies related to the objectives discussed in the Audit Objectives

section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or other studies. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions, for the report, and for the timing and format for providing that information.

With regard to including the auditor's report in an exempt offering document, you agree that the aforementioned auditor's report will not be included in any such offering document without our prior permission or consent. Any agreement to perform work in connection with an exempt offering document, including an agreement to provide permission or consent, will be a separate engagement.

With regard to the electronic dissemination of audited financial statements, including financial statements published electronically on your website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in these sites or to consider the consistency of other information in the electronic site with the original document.

Audit Procedures—General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government. Because the determination of abuse is subjective, *Government Auditing Standards* do not expect auditors to provide reasonable assurance of detecting abuse.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. Our responsibility as auditors is limited to the period covered by our audit and does not extend to later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We will request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will require certain written representations from you about your responsibilities for the financial statements; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by generally accepted auditing standards.

Audit Procedures—Internal Control

Our audit will include obtaining an understanding of the government and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to Government Auditing Standards.

An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards and Government Auditing Standards.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the District's compliance with the provisions of applicable laws, regulations, contracts, agreements, and grants. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion in our report on compliance issued pursuant to *Government Auditing Standards*.

Engagement Administration, Fees, and Other

We understand that your employees will prepare all confirmations we request and will locate any documents selected by us for testing.

The audit documentation for this engagement is the property of Grau & Associates and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to a cognizant or oversight agency or its designee, a federal agency providing direct or indirect funding, or the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Grau & Associates personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies. Notwithstanding the foregoing, the parties acknowledge that various documents reviewed or produced during the conduct of the audit may be public records under Florida law. The District agrees to notify Grau & Associates of any public record request it receives that involves audit documentation.

Our fee for these services will not exceed \$7,700 for the September 30, 2018 audit. The fees for fiscal year 2019 and 2020 will not exceed \$7,700 and \$7,700, respectively, unless there is a change in activity which results in additional time or if additional Bonds are issued.

The audit documentation for this engagement will be retained for a minimum of five years after the report release date. If we are aware that a federal awarding agency or auditee is contesting an audit finding, we will contact the party(ies) contesting the audit finding for guidance prior to destroying the audit documentation.

Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. Invoices will be submitted in sufficient detail to demonstrate compliance with the terms of this agreement. In accordance with our firm policies, work may be suspended if your account becomes 60 days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate.

This agreement may be renewed each year thereafter subject to the mutual agreement by both parties to all terms and fees. The fee for each annual renewal will be agreed upon separately.

The District has the option to terminate this agreement with or without cause by providing thirty (30) days written notice of termination to Grau & Associates. Upon any termination of this agreement, Grau & Associates shall be entitled to payment of all work and/or services rendered up until the effective termination of this agreement, subject to whatever claims or off-sets the District may have against Grau & Associates.

We will provide you with a copy of our most recent external peer review report and any letter of comment, and any subsequent peer review reports and letters of comment received during the period of the contract. Our 2016 peer review report accompanies this letter.

We appreciate the opportunity to be of service to Westchase Community Development District and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let us know. If you agree with the terms of our engagement as described in this letter, please sign the enclosed copy and return it to us.

Very truly yours,					
Grau & Associates
