So we talked about this quite a bit in the past, and, you know, it goes all the way back to when we were approached by the WCA about potentially doing assisting the county with financing the resurfacing of community roads, and then we put that on hold because the county has been working on its own plan for financing transportation improvements following the failure to pass the transportation funding referendum. So, on February 1st, the county staff took some options to the county about how the funding could be done, three options, as far	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	That will not be an opportunity for public comments. So at that point, they're planning on taking public comment. I talked with Joe Odda today from the WCA, who I understand is not the governmental affairs chair. He was the person that was originally kind of working with myself and Mark Ragusa on this, and he was going to be meeting with Rick Goldstein today. They had a meeting, and I think there is a meeting tonight, so he was going to brief Rick about our discussion. The WCA actually had somebody that or had a couple of people that attended the February 1st workshop that spoke to the county in support of what staff

It is a report that the county staff did to the board of county commissioners on February 1st related to the transportation funding issues, and it specifically impacts the resurfacing of roadways. So we talked about this quite a bit in the past, and, you know, it goes all the way back to when we were approached by the WCA about potentially doing assisting the county with financing the resurfacing of community roads, and then we put that on hold because the county has been working on its own plan for financing transportation improvements following the failure to pass the transportation funding referendum. 7	He wasn't specific about what those ones	7	I see you shaking your head no, Sonny, that

9	they were concerned with, it sounds like they	9	MR. MAYS: Part of Playscapes is the

11	And the other thing that we talked about	11	MS. WHYTE: They are affiliated with

7	MR. ROSS: Exactly.	7	MR. MAYS: Yes, sir.
8	MS. McCORMICK: So we probably need to	8	MR. LEWIS: I'll second that.

13	MR. LEWIS: Yes.	13	from, you know, \$2,000 to \$5,000 on pavers, so
14	MR. MAYS: No, not really.	14	it just depends on what the board wanted to

18 19	MR. MAYS: Very easily.	18 19	CHAIRMAN CHESNEY: No, that's fine.
20	CHAIRMAN CHESNEY: And then, you know,	20	MR. ROSS: but I did have in my notes
20	they only shoot up this high.	20	if we could do the same thing, that we could

5	MR. MAYS: Right.	5	CHAIRMAN CHESNEY: Matt.
6	MS. McCORMICK: Yes, we can include that	6	MR. LEWIS: Where are the exact location

8	MR. MAYS: It shouldn't be a big	8	MR. MAYS: You're talking about the

13	And even if we did it in-house with	13	center park. It would be about 50 yards north
14	crushed rock over there, we would scrape the	14	on the same grass surface, just on the
15	surface ourself with our tractor, remove the	15	other
16	sod, set the irrigation, and then just fill it	16	CHAIRMAN CHESNEY: So the same parcel,

21	MR. ROSS: And I didn't mean to suggest	21	MR. LEWIS: Okay. Thanks.
22	it is, but rather it jumped out at me when	22	MR. ROSS: And since I'm rolling here, I
23	they list three different exceptions that	23	saw that we have a proposal. And this is off

1	CHAIRMAN CHESNEY: Is there a reason why	1	After I pick my jaw up off the ground at
2	we wouldn't do pavers, I mean, for \$3,000?	2	that figure, I know we had talked about it in
3	MR.MAYS: No. Just the cost. And I	3	advance and we approved. Community, either
4	would go the paver route after looking it	4	directly or indirectly, was okay with it, it
5	over. We talked about it. I think the pavers	5	didn't embrace it, so I think we should move
6	would match everything else and that would be	6	forward with it.
7	the route to go.	7	And I'll make a motion that we proceed
8	MR. ROSS: Since I jumped the contract,	8	with the Florida Playstructures' proposal for
9	on the ping-pong table, I would ask that we	9	the ping-pong tables, absent some objection or
10	consider having cameras that are focused on	10	comment from staff.
11	the ping-pong tables, assuming we end up moving		MR. MAYS: No. Other than, like I say,
12 13	forward with that, and maybe even a nice	12 13	we didn't put the flooring in there, so 5,000
13 14	little sign that lets people know that there	14	for the floor.
14 15	are cameras on the tables. It'll maybe act as some preliminary deterrence to anybody messing	14	CHAIRMAN CHESNEY: So another 5,000 for the flooring.
15	with the tables and	16	MR. MILLS: I'll second that.
10	MR. MAYS: The system that we have over	17	CHAIRMAN CHESNEY: Jim seconds it. Any
18	there, it can handle up to eight cameras. So	18	further discussion on that?
19	we've got three in there. We're fixing to add	19	MS. McCORMICK: Is it just a purchase of
20	two more for the other side of the playground	20	the tables, or is it also the installation
21	over there.	21	also?
22	So we still got we can add one to	22	MS. WHYTE: Installation and all.
23	that pole, as a matter of fact, and shoot it	23	MS. McCORMICK: Okay. So can we make
24	straight over there, too. It shouldn't be a	24	sure that the CDD purchases the tables

1	print out a picture a copy of the picture	1	After we did all the installation, Doug
2	of the rendering that the board voted to	2	approached me. He called me first, and I
3	install at the entrances on Sheldon Road.	3	wasn't sure what areas we were talking about.
4	And my question is, when is it going to	4	We did the main entrance, we did all the
5	look like that?	5	areas. And then out of the main entrance, he
б	MR. NIEVES: The question is, why does	6	pointed out the two areas that you were
7	it look	7	concerned more about, and which I understood
8	CHAIRMAN CHESNEY: When is it going to	8	completely.
9	look like that?	9	So, to be honest, at the beginning, I
10	MR. MAYS: When is it going to look like	10	approached it like I do most of my jobs. Oh,
11	that?	11	I bid it so many plants. That's what I put
12	MR. NIEVES: Can you hear me?	12	in. That's that. And I'm just being honest.
13	MR. MILLS: Yes.	13	But later, I took the time and at
14	MR. NIEVES: I'm guessing the question	14	that point, I actually said, "I'm going to add
15	comes out because I've mentioned to Doug that	15	so many plants more." We added about \$300
16	a lot of the plant material we got was smaller	16	worth of plants. It looked better. Still not
17	than we're used to getting, and the reason, I	17	looking the way it needs to be.
18	explained to him, is not an excuse, but just	18	In getting prepared for this meeting, I
19	explanation on how things work.	19	actually went and saw a couple of the Kimco
20	And I want to go if you give me a	20	Properties, which are the ones that the
21	couple minutes through everything I went	21	landscaping is the way we want it to look, and
22	through and what I'm doing to get actually	22	it really hit me. It's really far beyond what
23	to make it look like that, like you mentioned,	23	we need to be, besides that it's going to
24	quicker.	24	grow, it's going to thicken out.
25	Just so you understand, in central	25	Yes, it's going to look beautiful. I
	Page 110		Page 112
1	Florida, there's only about actually, in	1	will add it wasn't on the quote, but I will
2	this area, about four growers so most of	2	add 60 more plants actually it's going to
3	the stuff, the nurseries you see, they're	3	be 20 just to give you information 20
4	buying from Miami or other areas.	4	liriopes, which were not in the basically,
5	And in this case, the plant material	5	by looking at the Kimco landscaping, I saw
6	that we have the most in there, which is the	6	that they have plants that I didn't put in,
7	oleanders, came from Miami. So what we always	7	which are liriopes, fox ferns, and alamandas.
8	used, we're used to getting a three-gallon,	8	And I'm adding 20 of each. That should
9	you know, the width and the height. It wasn't	9	thicken up a lot, make it a big impact. And
10	anything like it, but that's basically the way	10	in terms of growth, I mean, you might not want
11	it is, is the nursery move the plants.	11	to hear this, but I say in no more than three
12	As soon as they get you know,	12	months everything should be really thick.
13	somebody brings it over, they try to sell it	13	I mean, obviously the four trees that I
14	as quick as possible, and nobody holds them to	14	put in have not even one leaf on it. That's
15	get a certain width. This time of the year,	15	just nature. It's that time of the year that
16	that's the best I could get. And that's just	16 17	that's going to be a main show, and obviously you have not seen it there. It's just a
17	so just so you know how that I was	18	-
18	trying my best, I actually added 60 more to	18	standard hibiscus not standard MR. MAYS: Crape myrtles.
19	the count that I actually quoted you. I took	20	MR. MATS: Crape myrtles. MR. NIEVES: crape myrtles.
20	it on my penny.	20	Actually, most of the stuff I got is the same
21	So if we were to go and count all the	22	gallons or bigger. So what I'm saying is, I
22	shrubs of the oleanders, there's 60 more.	23	am trying, but this is going to be done by
23	Why am I saying this? Just to let you know	24	tomorrow. The new plants that I'm adding,
24	that I am that I was aware it wasn't	25	they will be there tomorrow.

3	go say is, I'm trying to show you that I am	3	MR. NIEVES: Okay. If I can comment.
4	concerned, that I have seen that it's not	4	Going back to what you said, we did add it. A
5	looking the way we want it to look, not only	5	lot of the plant material I resend a quote,
б	the way you want it, I want it to look	6	just stating a lot of three gallons went to
7	thicker.	7	seven gallons, all of the podocarpus, the
8	So I did mention to Doug that after we	8	scheffleras, basically till we were reached

10	month or so just to see if we really need to	10	We didn't want to go over the cost that
11	add more, because at some point, maybe adding	11	was approved. So we did do that. The reason
12	too much is going to be damaging, it's not	12	I didn't mention about the oleanders is
13	going to be a good idea.	13	because that's really where we dropped the
14	So I say, if it's okay with you guys,	14	ball is because it was a surprise to me. Yet
15	you know, let's look at it in a month or so	15	I know the things do grow slower at this time,
16	with the plant material already growing, and	16	but this is a first time for me that I had
17	at that point, like I said, we can add more.	17	gotten so small of a plant material.
18	But all I'm saying, all I'm doing is	18	Again, it comes from Miami. I visit the
19	doing is going to be on my penny. After that	19	tree farms that are close by. I visit my
20	point, I think that you know, I'm hoping	20	nurseries that are close by. But these are
21	that I have shown you that I've put more than	21	plants that we don't grow here. So they just
22	what's actually quoted, and if we need to add	22	bring them in bulk.
23	more, then maybe we can talk about it.	23	Whatever I see in a week, that's gone by
24	MR. MILLS: So I appreciate that. I	24	that week. You know, they bring a thousand,
