MS. McCORMICK: Okay. Well, I'm hoping that the county isn't going to get too in depth regarding reviewing this until we're ready to actually go forward with construction that would require the removal of the existing parking spaces, and then having to deal with the replacement. I mean, my impression from the previous discussions that we've had is that the board was really more inclined to wait and see if parking even is an issue, because it may turn out to be if it's not a problem, then we, you know, wouldn't necessarily even want to go forward with redoing the northern parking lot. But we are trying to respond to the question from the county, so I think this probably gives us what we need to do that at	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	spaces. I thought I heard earlier that you were able to actually find by maxing out the compact areas that you were actually gaining a few more. MR. DVORAK: Yes. MR. LEWIS: With that, though and I guess this is a question for you and maybe the rest of the board I mean, are there concerns that, you know, a lot of vehicles are don't seem to be getting smaller. Are we handicapping ourselves in a different way by making those spaces smaller in that northern parking spot or parking lot? Excuse me. Any thoughts on that? MR. DVORAK: Yeah. I mean, I know that there is a lady the lady that helped out with getting the signs approved the signage approved, she's a traffic engineer, and she lives out there with you guys, and her kids play at that park, and so she's there all the

2	So you may be you may have a point.	2	be.
3	You know, compact spots are generally not that	3	And then for the new lot, we estimate it
4	difficult to deal with if you're on an angle.	4	around \$50,000, in that range, for the new
5	Sometimes they can be a pain or more difficult	5	parking lot along the basketball court.
6	when they're, you know, straight like we've	6	MR. ROSS: Wouldn't that be correct that
7	got them shown or they are currently.	7	if we did the 50,000, we don't have to do all
8	But that's definitely something to bear	8	the 25,000?
9	in mind with respect to the you know, you	9	MR. DVORAK: Oh, right. No. That gives
10	got kids and big SUVs generally go together.	10	you all your spots back right there.
11	I don't know. That could be something that	11	MR. ROSS: Right. Right.
12	could be difficult.	12	MS. McCORMICK: And I think there are a
13	MR. LEWIS: Yeah. Maybe my I mean, I	13	couple of other issues, though, and maybe,
14	guess here's my thought on it. I mean, maybe	14	Robert, you can speak to those.
15	Erin and maybe we just make a plan that at	15	I mean, with this new lot, do we then
16	least replaces kind for kind. We don't maybe	16	need another access point from the parking lot
17	try to add more. Maybe we have Robert take a	17	onto the roadway?
18	few of the compact spaces away.	18	
19	I'm not trying to get off into the weeds	19	And also in talking to Sonny, she was
20	,	20	concerned about the proximity of the new
20	here about this conversation, but, you know,	20	parking area to the basketball court, that
22	maybe, at least, we just provide at least	21	having basketballs that would be, you know,
22	what's there today.	22	flying onto the cars in the parking lot.
	MR. DVORAK: Yeah. I think our exercise		MR. DVORAK: Yeah, that's a possibility.
24	we were just kind of pushing all of the	24 25	Most basketball courts are fenced just so the
25	criteria to the max to see what where we	23	balls don't fly all over the place. But I get
	Page 14		Page 16

6	MR. LEWIS: All right.	5	that people didn't have to walk down the drive
	MR. ROSS: This is Brian. I actually	7	aisle.
7 8	like the thought about adding those additional	8	And Erin is right. You have to have
	parking spaces. I would be interested in us		you know, you've got one way into that off the
9 10	exploring that. I believe it would give us	9	existing parking lot, so you'd have to exit
10	flexibility for future events. It will give	10	back onto the main road, and it would be a
12	us flexibility as our lots need to be repayed	11	right out only because of the you know, the
	in the future. It addresses the issue of	12	island the median island on the boulevard
13 14	larger vehicles, et cetera.	13 14	there.
	I haven't thought enough as to whether		So, I mean, there are some you know,
15 16	that is an answer or the answer, but I thought	15	it's not ideal, but the whole the idea
	it was a good idea, and it seemed to me it	16	behind the concept is to, you know, replace
17 10	would allow us to perhaps keep some of our	17	the spaces, you know, in the general vicinity
18 10	trees at the other lot. So I think we should	18	or in the location of where the spaces were
19	consider it.	19	being lost.
20	MD DVODAK, Vook The are thing I did	20	
20 21	MR. DVORAK: Yeah. The one thing I did	20	This is why we kind of even ferreted out
21	do is I did a quick estimate of the cost for	21	that idea to show you guys. I mean, it really
	-		-

you're in the ballpark of about 25 grand to do, you know, take the islands out and re-stripe and create compact spaces and all

We just saw that strip and thought that, you know, we could fit, you know, one island

2	MR. LEWIS: At this point, though, we	2	together then?
3	don't have to make a decision on that. Right,	3	MS. McCORMICK: Right. Right.
4	Erin? It's just more of some way to show the	4	CHAIRMAN MILLS: Okay. Okay. So we'll
5	county a way we can gain more space. Right?	5	talk about that in a minute here.
6	I think we can take	6	Okay. So, Robert, anything else?
7	MS. McCORMICK: Yeah.	7	MR. DVORAK: Yeah. Well, my question to
8	MR. LEWIS: because Brian made a good	8	follow up on that is, do we know exactly how
9	point that I didn't think about before, but I	9	many spots that we're losing because I can
10	think maybe we could table this for the board	10	if it's six, we'll replace it with six, and
11	later for the extra parking spots.	11	that will be different than if we need to
12	MS. McCORMICK: I think so, too. I	12	replace seven. Does anyone know the exact
13	mean, I think what we can do is just if you	13	number?
14	want to have if you want to have Robert go	14	MS. WHYTE: Six, if I'm not mistaken.
15	back and show the northern parking lot with	15	Right, Doug?
16	just the number of parking spaces that are	16	MR. MAYS: Six.
17	being lost being replaced in that northern	17	MR. DVORAK: Yeah. All right. Sounds
18	parking lot, we could do that, and I think	18	like six. We'll go with six.
19	that probably is what the county had asked for	19	And then I think that's oh, the only
20	at this point.	20	other thing we had is we had a little slurry
21	That wouldn't preclude us from, you	21	of pond inspections and recertifications with
22	know, looking at another option of doing the	22	SWFWMD again. Those were taken care of. I
23	additional parking lot if we aesthetically	23	think our field guy sent Sonny and Doug and
24	wanted to go that route, but I don't think we	24	Andy the recourse and everything was fine.
25	want to, you know, create more issues at this	25	And I think that's it for me.

I just got an email from Alan, and so he has been tied up, I think, the last week or so. But hopefully the board members, that you all got the latest version of the option and land lease agreement that I sent out last week, and he said that he Alan said that he feels like it's about in final form. There's a couple of issues that he still needs to get back to me about regarding some follow up that he was doing, but I think if we got that land lease in a substantial form that the county is I mean, that the CDD is comfortable with, then I want to follow up with the county now and provide them with that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	CHAIRMAN MILLS: Okay. One is that the county did approve the traffic control jurisdiction agreement for the Greens and Harbor Links, so that gives us the renewal of the agreement so that the county can do traffic enforcement within the two villages. And, Sonny, is there anything else that we needed to do to follow up regarding the issue that was brought up concerning golf cart usage within those communities, because I

1	determination?	1	knows, so in the instructions to the
2	MR. MENDENHALL: Yeah. So the plan is,	2	qualifiers, we identified what the factors are
3	and just to give a little bit of additional	3	that we're going to be looking at to determine
4	information, we had over 25 companies that had	4	pre-qualification of the contractors that are
5	requested the RFQ, so that's, I mean, by far,	5	going to be invited to submit bids on the
6	the highest response I've ever had in doing	6	landscape maintenance, and that's what we'll
7	this for quite some time.	7	be reviewing and making recommendations on,
8	The documents are due back on the 12th.	8	but then the board will have the ultimate
9	They're going to send them electronically,	9	decision on that.
10	which, of course, I'll share with Sonny and	10	And I'll make sure in the agenda
11	Doug and OLM, and then we have a meeting set	11	packages I'm sure that you're going to have
12	up to, you know, kind of go over them, which	12	a lot of information to include in there,
13	is similar to what we did last time when we	13	Andy, but I'll make sure there's a list of
14	had the had an RFQ with the	14	those factors to be considered that the
15	pre-qualification documents.	15	board has in front of them, too.
16	MS. McCORMICK: So let me just ask you a	16	MR. MENDENHALL: Yeah. Sounds good.
17	question about that.	17	CHAIRMAN MILLS: Well, how should this
18	So, Andy, is it going to be you and	18	proceed? If we get 20 back that you guys deem
19	Paul or you and Paul and Sonny and Doug that	19	qualified that the board has to score through,
20	are reviewing the qualification statements, or	20	that sounds like a workshop.
21	do you need me for anything?	21	If we get two or three or four, we can
22	MR. MENDENHALL: Yeah. No. It will	22	probably tackle it in a monthly meeting.
23	correct. It will be myself and Paul and Doug.	23	MR. MENDENHALL: So and, Erin,
24	I don't know if Sonny was going to be	24	correct me if I'm wrong about this, but my
25	involved. But, yeah, that's the plan, and	25	understanding is that you have a two-phased
	Page 26		Page 28
1	then we'll have kind of we'll have a	1	Drocess.
2	summary put together, of course, for the board	2	We'll have the pre-qualification, and
2	to have a look at as far as recommendations	2	hypothetically, whatever, whether itle 20 er

3 3 hypothetically, whatever -- whether it's 20 or to have a look at, as far as recommendations. 4 4 And, most importantly, there certainly whether it's ten, I think at that point, 5 5 will be some folks that don't meet the there's not necessarily action for the board 6 6 pre-qualifications, so it will narrow our other than to accept the recommendation, and 7 7 then we ask those firms to -- and obviously, I numbers down. 8 8 MR. MAYS: Andy -- this is Doug -- did guess, the board could reject the 9 9 you -- I kind of lost a little bit of recommendation or have some suggested changes. 10 10 connection there. Did you set a date already But, ultimately, the outcome would be 11 for when the three or four of us are going to 11 one way or the other to go back to those firms 12 12 get together? that are now pre-qualified and ask them to 13 MS. McCORMICK: Yeah, I have. Paul had 13 actually bid on it. 14 suggested a date. I mean, I think that date's 14 So then we come back at the next meeting 15 flexible, so let me dig that up, and I'll 15 and have what would be more of a deep dive on 16 shoot that across to you, Doug. He had sent 16 here's their prices, here's what they offer, 17 17 that to me recently. and, potentially, you know, if we use some 18 And, like I said, that date is probably 18 sort of a ranking process or anything like 19 flexible, as far as -- you know, as long as we 19 that, that happens at that end stage. 20 can get together with enough time to go over 20 CHAIRMAN MILLS: Gotcha. Okay. 21 the information prior to the board meeting to 21 MS. McCORMICK: Well, I would make a 22 receive it, we should be fine. So I'll shoot 22 little bit of a clarification to that. I 23 that over to you. 23 mean, my thought is that once we pre-qualify 24 MR. MAYS: Okay. Thank you. 24 these bidders, that means that they 25 MS. McCORMICK: And just so the board 25 essentially met the ranking criteria that we

	Page 29		Agenda Page12 Page 31
1	would have looked at, otherwise, if we were	1	percent ranking factor for cost, you know, 30
2	doing this as a ranking as opposed to a	2	percent for this other factor, you know,
3	pre-qualification, and then invitation to bid	3	reliability or timeliness or quality of you
4	process.	4	know, whatever other non-cost factors are in
5	So I think once we have pre-qualified	5	the consideration? How do we establish that?
6	these bidders, then it's really it's really	6	MS. McCORMICK: Well, so for the factors
7	going to come down to whoever submits the low	7	to be considered for the pre-qualification, so
8	bid, because we have already made the	8	the things that we're going to look at to
9	determination that they're qualified at that	9	determine pre-qualification is the skill set
10	point in time.	10	and experience of the staff and the personnel
11	So, I mean, I think it is a question	11	for the company, their training and safety
12	it's a question for the board to consider. Do	12	record, their insurance that they have, their
13	you want to with the recommendations that	13	ability to manage and the maintenance of a
14	are made by staff, do you want to set up a	14	property of this size, the certifications,
15	workshop so that you can get a little more	15	technical training, and experience of similar
16	into those recommendations that are made about	16	projects, their past and current record with
17	the qualifying, or do you think that it's	17	similar projects, the volume of work
18	going to not require a workshop, and you're	18	previously awarded, their past performance on
19	going to get the recommendations from staff	19	
20	and not have a lot of follow-up on it?	20	any other project, subcontractors used, availability of equipment, financial
20	CHAIRMAN MILLS: Based on that	20	
22		21	resources, and the overall ability to provide the services.
23	presentation, I think we're probably okay in a	23	
23	meeting, unless someone else feels	23	So that's the complete guide for the
24	differently.	24	qualifications of each of these companies. And
2.5	MR. MENDENHALL: And, Erin, the board	2.5	where I have done pre-qualifications like this
	Page 30		Page 32
1	Page 30 will still at that end point have or they	1	Page 32 in the past, I think once you tell a

So I think you use the pre-qualification

So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct?	2 3 4 5 6 7	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that
2 3 4 5 6 7 8	will still at that end point have or they will still choose the lowest, but reasonable and responsive. So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah.	2 3 4 5 6 7 8	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification

So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. 	2 3 4 5 6 7 8 9	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that

So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds 	2 3 4 5 6 7 8 9 10	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that you are inviting, any one of them, is capable

And so it sounds like 	2 3 4 5 6 7 8 9 10 11	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that you are inviting, any one of them, is capable of doing the project; and then when you get to the invitation to bid stage, you're just looking at price unless there's unless
2 3 4 5 6 7 8 9 10 11 12	 will still at that end point have or they will still choose the lowest, but reasonable and responsive. So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds like MR. BAUMHOVER: This is Forrest. I have 	2 3 4 5 6 7 8 9 10 11 12	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that you are inviting, any one of them, is capable of doing the project; and then when you get to the invitation to bid stage, you're just

So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds like MR. BAUMHOVER: This is Forrest. I have a question. 	2 3 4 5 6 7 8 9 10 11 12 13	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. 2 3 4 5 6 7 8 9 10 11 12 13 14	 will still at that end point have or they will still choose the lowest, but reasonable and responsive. So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds like MR. BAUMHOVER: This is Forrest. I have a question. CHAIRMAN MILLS: Go ahead. 	2 3 4 5 6 7 8 9 10 11 12 13 14	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that you are inviting, any one of them, is capable of doing the project; and then when you get to the invitation to bid stage, you're just looking at price unless there's unless there's factors that cause the bid to be
2 3 4 5 6 7 8 9 10 11 12 13 14 15	 will still at that end point have or they will still choose the lowest, but reasonable and responsive. So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds like MR. BAUMHOVER: This is Forrest. I have a question. CHAIRMAN MILLS: Go ahead. MR. BAUMHOVER: So, in my mind, there's 	2 3 4 5 6 7 8 9 10 11 12 13 14 15	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that you are inviting, any one of them, is capable of doing the project; and then when you get to the invitation to bid stage, you're just looking at price unless there's unless there's factors that cause the bid to be non-responsive, like Andy was just alluding
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 will still at that end point have or they will still choose the lowest, but reasonable and responsive. So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds like MR. BAUMHOVER: This is Forrest. I have a question. CHAIRMAN MILLS: Go ahead. MR. BAUMHOVER: So, in my mind, there's a difference between meeting minimum criteria, 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that you are inviting, any one of them, is capable of doing the project; and then when you get to the invitation to bid stage, you're just looking at price unless there's unless there's factors that cause the bid to be non-responsive, like Andy was just alluding to.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 will still at that end point have or they will still choose the lowest, but reasonable and responsive. So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds like MR. BAUMHOVER: This is Forrest. I have a question. CHAIRMAN MILLS: Go ahead. MR. BAUMHOVER: So, in my mind, there's a difference between meeting minimum criteria, which would allow a contractor to be 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that you are inviting, any one of them, is capable of doing the project; and then when you get to the invitation to bid stage, you're just looking at price unless there's unless there's factors that cause the bid to be non-responsive, like Andy was just alluding to.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 will still at that end point have or they will still choose the lowest, but reasonable and responsive. So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds like MR. BAUMHOVER: This is Forrest. I have a question. CHAIRMAN MILLS: Go ahead. MR. BAUMHOVER: So, in my mind, there's a difference between meeting minimum criteria, which would allow a contractor to be qualified, versus, you know, I guess, the 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. So I think you use the pre-qualification to determine that all of these bidders that you are inviting, any one of them, is capable of doing the project; and then when you get to the invitation to bid stage, you're just looking at price unless there's unless there's factors that cause the bid to be non-responsive, like Andy was just alluding to. I mean, if they if they submit a bid that doesn't make sense or, you know,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 will still at that end point have or they will still choose the lowest, but reasonable and responsive. So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds like MR. BAUMHOVER: This is Forrest. I have a question. CHAIRMAN MILLS: Go ahead. MR. I mean, if they if they submit a bid that doesn't make sense or, you know, indicates that they don't understood the scope
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	 will still at that end point have or they will still choose the lowest, but reasonable and responsive. So, you know, if we have some bids that come in that don't make sense or have some overwhelming factors, they'll still have a little bit of leeway there. Correct? MS. McCORMICK: Right. Right. Yeah. Definitely. CHAIRMAN MILLS: Okay. And so it sounds like MR. BAUMHOVER: This is Forrest. I have a question. CHAIRMAN MILLS: Go ahead. MR. And is it the type of contract where we 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	in the past, I think once you tell a contractor you've reviewed all of that information and you've determined that they are qualified, then I think it makes it difficult to go back later and say, oh, well, you know, the rank against these other contractors, you didn't rank as highly. The other thing for this particular budget is, we had a chance you might recall at the last meeting we talked about the one area that had an increase and whether that increase was, in fact, needed right now this year. So we have had a chance to work with Greg, and he was helpful in showing where that wasn't needed. So that has been reduced, and so those residents don't have an increase for this year, which was kind of the directive that the board gave at the last meeting, was to have this reviewed, and if it's not needed, to not put that increase in.

But for the open space areas themselves, we would definitely, I think, want to post signage that addresses the social distancing requirements and the fact that people are using the parks at their own risk.

The other thing that the insurance company has recommended that, you know, maybe enhance your monitoring of the parks to ensure that the social distancing and the guidelines are being followed. That may not be really an option that we have, because I don't know that we have that, that would be available to do that.

And we also don't really have somebody that would be able to like clean areas on a regular basis or disinfect areas. So that comes into play when you're looking at reopening the playground areas or the restrooms. So that might not be something we would want to do at this point. CHAIRMAN MILLS: Well, just to add to

Fiscal Year 2021

REVENUES

Interest-Investments

The District earns interest on the monthly average collected balance for their operating accounts.

Special Assessments-Tax Collector

The District will levy a Non-Ad Valorem assessment on all the assessable property within the District in order to pay for the operating expenditures during the Fiscal Year.

Special Assessments-Discounts

Per Section 197.162, Florida Statutes, discounts are allowed for early payment of assessments. The budgeted amount for the fiscal year is calculated at 4% of the anticipated Non-Ad Valorem assessments.

Pavilion Rental

The District earns revenue on the rental of the District's pavilion and other amenities.

EXPENDITURES

Administrative

P/R-Board of Supervisors

Chapter 190 of the Florida Statutes allows for members of the Board of Supervisors to be compensated \$200 per meeting at which they are in attendance. The amount for the fiscal year is based upon all supervisors attending every meeting.

Professional Services-Engineering

The District's engineer provides general engineering services to the District, i.e. attendance and preparation for monthly board meetings when requested, review of invoices, and other specifically requested assignments.

Professional Services-Legal Services

The District's Attorney, Erin McCormick Law P.A. provides general legal services to the District, i.e., attendance and preparation for monthly Board meetings, review of contracts, review of agreements and resolutions, and other research as directed or requested by the Board of Supervisors and the District Manager.

Professional Services-Management Consulting Services

The District receives Management, Accounting and Administrative services as part of a Management Agreement with Inframark. Also included are costs for Information Technology charges to process the District's financial activities, i.e. accounts payable, financial statements and budgets. The budgeted amount for the fiscal year is based on the contracted fees outlined in Exhibit "A" of the Management Agreement.

Professional Services-Recording Secretary

The recording of the board minutes by Richard Lee Recording. Their charges include an up to \$85 hourly appearance fee, \$5.50 per page, audio and postage expenditures.

Auditing Services

The District is required to conduct an annual audit of its financial records by an Independent Certified Public Accounting firm. The budgeted amount for the fiscal year is based on contracted fees from the previous year engagement.

Postage and Freight

Actual postage and/or freight used for District mailings including agenda packages, vendor checks and other correspondence.

Fiscal Year 2021

EXPENDITURES

Administrative (continued)

Insurance-General Liability

The District's Property Insurance policy is with Public Insurance Risk. They specialize in providing insurance coverage to governmental agencies. The budgeted amount allows for a projected 10% increase in the premium.

Printing and Binding
