So if you guys I believe you are here to talk about the turkey vultures. Is that correct? MR. HOLT: Yes. MR. YESNER: Yes. THE CHAIR: Okay, and if we can if you guys don't mind until waiting until the field manager's report, if that's okay? All right. Very good. Okay, so moving on to the number three topic, engineer's report. Robert, how are you? MR. DVORAK: I have a few updates today. CHAIRMAN LEWIS: Excellent. MR. DVORAK: The first one is Doug and I had looked at a couple of locations of ponds on Greensprings Drive, and Doug wanted me to get an RFP out, and we did that and got one	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	to be done; especially now before we get into the rainy season. This is the perfect time to do it, so and like I said, we've used it on properties before. I believe it's the same stuff that was used in your location, your pond behind yours years ago, and it seems to be holding up well. So I would push forward and approve it, if possible. CHAIRMAN LEWIS: So is there a motion to move forward with that? MR. ROSS: I'll move. CHAIRMAN LEWIS: Moved by Mr. Ross. MR. CHESNEY: I'll second it. Can I just ask a question? CHAIRMAN LEWIS: Sure, absolutely. MR. CHESNEY: So where exactly is this again? MR. MAYS: Greensprings. We have two different locations. One is on Greensprings Boulevard, the inner pond, and one is on Greensprings on an outer pond behind people's houses. So it's all three are in the

Page 9

1 shows the -- all of the zones where the CDD 2 maintained -- owned and maintained roads are. 3 And so by section, if you look at the 4 MR. DVORAK: So you have one little last page, you'll see what our estimate is on 5 the -- on the remaining life expectancy and 6 then the estimating total cost for redoing MR. CHESNEY: Oh, yeah, that's really --7 them. And then we've added immobilization, MOT 8 MR. DVORAK: And then this other one and contingency. 9 And so when you look at this, you'll be MR. CHESNEY: Okay, all right. And 10 able to look out like -- you know, between now that's only sixteen, is that what you said, 11 and over the next 12 years, this is the total, 12 but this gives you a better idea of when the 13 money is going to be need to be allocated or 14 available. CHAIRMAN LEWIS: Okay. So we have --15 CHAIRMAN LEWIS: Okay. 16 let's vote on the motion to fix the pond bank MR. DVORAK: The other thing I have just slope. Is it greater than 16,000 or was 17 for your guys' info in -- and in your workshop 18 is each -- I think each segment had just a 19 MR. DVORAK: Yeah, 16,575 was their separate little cost estimate breakdown to show 20 what the quantities were and just gives you an CHAIRMAN LEWIS: Okay. So all in favor? 21 idea of where costs are coming from, and I know 22 these are really close. We do resurfacing 23 projects and the CDD's used these other unit CHAIRMAN LEWIS: Motion approves five to 24 costs, and as of today, they are extremely 25 accurate.

	Page 10		Page 12
1	(Motion passes.)	1	So really, I mean the thing that you guys
2	MR. DVORAK: All right. The second one	2	would have to build in as you get into is
3	is the the update on the the resurfacing	3	inflation and things like that; but we feel
4	pavement resurfacing. I I put together a	4	real good about the costs, the quantities and
5	little report for everyone on that, and so I	5	then the total costs that is you have there.
6	don't expect everyone to necessarily digest	6	The other thing I have is actually and
7	everything in this sitting, but it's going to	7	I didn't want to bring it because it's like a

10	So I mean, there wasn't a whole lot to	10	to have for records, those are available, and I
11	start with from the previous one, to be quite	11	could put them all in a notebook if you wanted
12	honest. I mean, it wasn't even clear where	12	all of that.
13	they got their quantities from. So what you're	13	MS. WHYTE: Could you send them to the
14	going to see here	14	office to the e-mail?
15	MS. WHYTE: Do you have another one for	15	MR. DVORAK: I can I can try to do
16	me?	16	that. I don't know if it will e-mail, but if
17	MR. DVORAK: Yes, sorry.	17	we can, I'll I'll do that when
18	MS. WHYTE: That's okay.	18	MS. WHYTE: Okay, because we have a file
19	MR. DVORAK: So basically, what you'll	19	going and the
20	see is everything that you really are really	20	MR. DVORAK: Yeah.
21	super interested in is on the last page, but	21	MS. WHYTE: Okay.
22	what you'll see is a summary of what the	22	CHAIRMAN LEWIS: Mr. Ross, did you have a
23	existing conditions are for each area and	23	comment?
24	that's our inspector's quick assessments of	24	MR. ROSS: A couple of questions. What
25	those areas, and then you'll see a graphic that	25	is MOT?

Any other comments or questions? MR. ROSS: Yeah, I'm sorry, and I'm trying to run as fast as I can, but related to doing the comparison, based on what Greg just said, I think it'd be helpful for us to understand whether the estimated life span that we've used in the past was accurate. I can see that we we were wrong on our traffic patterns and whatever else and roads that had begun to grow faster than we thought, or perhaps slower, so we ought to make sure that that's on target, as well. So if we need to do pavement messaging, let's do it; if we need to do make a bigger sign, let's do it. If we need to put up reflectors, then let's do it. If we don't do it, we may have unintentionally exposed ourselves to a liability in the event, God forbid, there was an accident there or something like that. I I don't know the answer, I just know those general principles of law, and it gets me a little bit nervous to hear our engineer saying that someone on their staff says that it may be short of the mark, so to speak. The other comment I would add to it is I I, personally, feel like this is an issue that should be driven by that local community. My guess is a fair number of them have now come to appreciate and rely upon that stop sign, and so as we make modifications, if there is not proper publication whether it was as far as to remove it or to add something else there may be some relaxed responses from the community not appreciating the significance of

MR. BAUMHOVER: Right.	8	MR. DVORAK: The only other thing was
MR. ROSS: I think there should be a	9	is Erin good she was we were putting

1	MR. MAYS: Sorry.	1	MS. McCORMICK: S
2	CHAIRMAN LEWIS: No, no, no, that's okay.	2	what you'll see on here
3	And Mr. Ross does bring up a good point and,	3	different parcels. Parcel
4	you know, my question on whether we needed to	4	the Promise Drive parce
5	vote on that or not, you know, was just	5	MR. CHESNEY: What
6	maybe just trying to do the right thing, but	6	MS. McCORMICK: 1
7	but maybe jumping ahead of any legal concerns	7	shaded area. So Parcel
8	that we may have, so I appreciate you bringing	8	right of way that runs al
9	that to the board's attention.	9	this section and then Pa
10	MR. CHESNEY: I mean, I think what I	10	easement, Parcel D is th
11	understood you to say, though, is just I	11	building property. And
12	mean, whatever we do has to comply with the	12	we've got the access co
13	manual because	13	maintenance building to
14	MS. McCORMICK: Right.	14	access that runs north-s
15	MR. CHESNEY: we have to certify it	15	also got the 30 feet of a
16	every couple of years for the sheriff. Is that	16	Drive property to to the
17	what I	17	easement.
18	MS. McCORMICK: That's that's a	18	So this is what, you
19	baseline of what we need to do, but I think	19	to tell TECO we're lookir
20	what Brian was saying is for me to, you know,	20	access to our properties
21	just get some clarification from the	21	have legal access.
22	transportation engineer about the advice and	22	MR. BAUMHOVER:
23	recommendations that she's making and then, you	23	of Parcel C that runs sou
24	know, if we need to come back to this next	24	from Parcel D, is there a
25	month, we can do that. I don't know if we need	25	or is that just to connec

Page 28

	raye 20
1	MS. McCORMICK: Sure, but anyways, so
2	what you'll see on here are it's designated
3	different parcels. Parcel B is what we call
4	the Promise Drive parcel that we
5	MR. CHESNEY: What part is the easement?
6	MS. McCORMICK: The easement is the grey
7	shaded area. So Parcel A is the whole TECO
8	right of way that runs along the runs along
9	this section and then Parcel C is the access
10	easement, Parcel D is the Westchase maintenance
11	building property. And so you'll see like
12	we've got the access coming from the
13	maintenance building to the TECO easement
14	access that runs north-south, and then we've
15	also got the 30 feet of access from the Promise
16	Drive property to to the TECO access
17	easement.
18	So this is what, you know, I'm planning
19	to tell TECO we're looking for in the way of
20	access to our properties that currently don't
21	have legal access.
22	MR. BAUMHOVER: So the the the part
23	of Parcel C that runs south of where you turn
24	from Parcel D, is there a reason for that one,
25	or is that just to connect it to the to the

	Page 29		Agenda Page 12 Page 31

	ess gate to the south?	1	this, though and I just got some
	MS. McCORMICK: Well, that would be to	2	clarification from Sonny today. So I thought
	v somebody that's trying to get to the	3	everything was done with respect to the
	ntenance building or that is leaving the	4	electrical or the well that we that you want
	ntenance building to travel down the TECO	5	on the Promise Drive property and the nano
	ss easement.	6	bubbler on the lake to the northwest, and then
	MR. BAUMHOVER: So like this part down	7	I found out today from Sonny that all the
	to the access gate, like right right	8	electrical work has been done and it's been
	to Linebaugh?	9	inspected, but TECO hasn't actually turned on
	MS. McCORMICK: Mm-hmm.	10	the electricity yet. Is that right?
	MR. BAUMHOVER: Okay, so	11	MR. MAYS: Correct.
	MS. McCORMICK: Yeah, I mean, it doesn't	12	MS. McCORMICK: So so that's imminent,
	e TECO parcel doesn't run all the way down	13	or when is that going to happen?
	nebaugh Avenue because that intervening	14	MR. MAYS: Yes, I notified the
	erty between Linebaugh Avenue and the TECO	15	electrician today and he was going to make that
	of way is owned by the school board.	16	phone call, so to see what's what the
	MR. BAUMHOVER: Got it, you would just go	17	holdup is because he thought they would
	n to the existing access gate, this label on	18	already have that meter on here by last week
	bottom? That's what the	19	sometime. So
	MS. McCORMICK: Yes.	20	MS. McCORMICK: Yeah, so I've just I
	MR. BAUMHOVER: request is for?	21	mean, I've been hesitant to do anything until
	MS. McCORMICK: Yes, yeah.	22	we get that issue resolved.
	MR. BAUMHOVER: Okay.	23	MR. BAUMHOVER: So I was going to ask a
	MS. McCORMICK: Yeah, is there an	24	question about that access gate to the south.
25 exist	ing access gate there currently?	25	Is it something that we would like access to?
	Page 30		Page 32
1	MR. DVORAK: Yes, there is.	1	MR. MAYS: I don't think TECO is going to
	MS. McCORMICK: Okay.	2	give us access to that one.
	MR. DVORAK: In fact, that north-south	3	MR. BAUMHOVER: Well
4 th	e the path itself was lined up with the	4	MR. CHESNEY: That's what she is
	ess gate, and at the north end, there's a	5	MR. BAUMHOVER: I'm just wondering if
	sing there's a ditch and there's a	6	we should consider asking them if if it
	sing where they where their trucks	7	makes it easier for us to access from Linebaugh
	their trucks used.	8	instead of going through the school parking lot
	MR. BAUMHOVER: Right.	9	and going out to
	MR. DVORAK: And when we were going out	10	MR. MAYS: Right.
	he first one where we had parking and	11	MR. BAUMHOVER: I mean, I don't know. Is
	ything, you know, the other stuff in there	12	it something that you would want Erin to pursue
	bu know, when Steven and I were pursuing	13	or
	and what they had us do is line it up	14	MR. MAYS: If we want access other than
	the crossing at the you know, at the	15	that office because if somebody you know,
	h end and the gate at the south end. So	16	obviously, if we turn it into a community yard
	road is not actually perfectly	17	of some sort, or community garden, we're
	h-south. It follows the you know, the	18	going to have to have access, because the shop
	nal path of the actual	19	would be closed on the weekends, and I think a
	MR. BAUMHOVER: Whatever whatever path	20	lot of people will want to use it on weekends.
21 <b>the</b>	-	21	So yes, we would need some sort of gate down
	MR. DVORAK: Right, exactly.	22	there, but we would also be prepared to put in
	MR. BAUMHOVER: TECO trucks have made.	23	a road, too.
	MR. DVORAK: Exactly.	24	MR. BAUMHOVER: Right, I mean, it just
	MS. McCORMICK: So one thing related to	25	looked like if we were going to ask for that

1	access all the way down, could we just add	1	MR. BAUMHOVER: Don't know yet, okay.
2	access to that access gate as part of the	2	MS. McCORMICK: We're yeah, we're
3	request?	3	taking this one step at a time.
4	MS. McCORMICK: Well, that's but that	4	MR. BAUMHOVER: Right, well, I just
5	property isn't owned by TECO, though, so we're	5	wanted to make sure if TECO owns that gate,
6	dealing with TECO right now. I mean, the	6	that we include that in the request if that's
7	MR. BAUMHOVER: But do they own the	7	something that we need.
8	the gate?	8	CHAIRMAN LEWIS: So do you need any
9	MR. MAYS: They do own that south	9	action from us tonight, Erin?
10	portion, don't they?	10	MS. McCORMICK: No, this is just for
11	MS. McCORMICK: They don't own anything	11	information.
12	that is south of where the grey line ends.	12	CHAIRMAN LEWIS: Okay. Mr. Barrett?
13		13	MR. BARRETT: I have found our new school
	MS. WHYTE: There's a gate there that is	14	
14	owned by TECO that opens up their parcel, but	14	board member, Nadia Combs, to be very
15	below that gate to the road		interested in wanting to build relationships
16	MS. McCORMICK: So maybe the arrow to	16	with the communities she represents. So if you
17	where this gate is shown is just	17	need that contact for the board, I can give it
18	MS. WHYTE: Yeah.	18	to you.
19	MS. McCORMICK: It's pointing at the	19	MS. McCORMICK: Thank you.

And of course, the question is is when will the board decide to allow bounce-houses, water slides, anything you know, into the parks and I said I would ask. Because at this particular point, we are still restricted. Am I correct, Erin? MS. McCORMICK: Well, the county the last I had talked to them, you know, like a month ago, they weren't allowing any type of those types of uses within their parks. So if we're going to be consistent with that I mean, I can check it again or periodically, but	2 3 4 5 6 7 8 9 10 11 12 13	now. So I know Sonny, have you talked to MS. WHYTE: I did not get to the library this afternoon. I'm not sure they are open yet. CHAIRMAN LEWIS: Okay. MS. WHYTE: If not how much notice do we need to have if we use this room? Do we need to put a MS. McCORMICK: We've already advertised it. MS. WHYTE: Oh, we did?
