So this is the agreement between the CDD and the US Department of Agriculture for to address the dispersal and removal of black and turkey vultures, and I have been talking to the representative from the USDA multiple times over the last several weeks. I finally he got back to me this morning with the scope of work for this, and what he told me on the phone was that they are proposing to just do an extension of the existing agreement. I thought I told him we wanted it to start as soon as possible, but when he e-mailed something after our call, it starts on February 15th, and what he had told me was that it would	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	same as what it was under our current agreement and, you know, they are going to start with the I guess, you know, with the least disruptive and you know, only in the event that more aggressive measures are such as pyrotechnics or, you know, lethal action would be necessary would they take that, but he was not anticipating that. MR. CHESNEY: Okay. So I'm not sure how to proceed here. So do you guys have any direct questions on this topic to Erin specifically before I continue? MR. BARRETT: Sure. So the lethal possibility is still part of the MS. McCORMICK: It's in the scope of services, and they were not amenable to changing the scope, but he said that he did not think that that would be necessary. MR. BARRETT: They are not amenable to changing the MS. McCORMICK: They're not yeah, they wanted to have the full range of options, but they are going to start with screamers and, you

So Erin, 6A we're going to start with. MS. McCORMICK: Okay. 1	MR. BARRETT: So the last I'd heard, the	1	CHAIRMAN LEWIS: Okay. And I did hear
2	USDA was declining, so this is the USDA	2	what I think it was Chris saying it. In
3	changing its mind and saying we	3	terms of the lethal option, I mean, obviously
4	MS. McCORMICK: That's what I understand.	4	that's something the board has approved before.
5	I did not have I don't know directly, I	5	What I would say to that and from my stance is
6	wasn't directly involved in what caused that	6	if, you know, the USDA agent felt that that was
7	change in position for them, but my	7	necessary although I think from the last
8	understanding is is that they came back and	8	time they came out, that was only going to be a
9	they said that they would consider doing the	9	last resort. If they felt that that was
10	services at this point.	10	necessary on this for the next go-round,
11	MR. BARRETT: So would a vote today	11	then I would just maybe ask that they call us
12	actually be authorizing lethal removal with	12	and inform us that that's a possibility and
13	where would they are you comfortable that	13	you know, if we, as a board, want to I don't
14	they are not going to take that approach? I	14	know if that's even possible, but just kind of
15	don't want to create this PR mess that happened	15	discuss it at the next meeting or something,
16	again.	16	I'd be open to that, but I you know, again,
17	MS. McCORMICK: I mean, I can't assure	17	I think that it's good news maybe that they're
18	that that wouldn't happen. I think that are	18	willing to come back and they're willing to
19	they in contact with you, Doug, on a regular	19	help, in my opinion, with a situation that

23	morning about two weeks ago and gave us some	23	know if we're getting to a point where somebody
24	information on that if we would need wanted	24	would need a motion to approve it or to
25	if we wanted to possibly do it in house.	25	continue if we wanted to or
	Page 10		Page 12
1	MS. McCORMICK: Mm-hmm. Yeah, we also	1	MR. WIMSATT: (Inaudible.)
2	have the option I mean, we can terminate	2	MR. CHESNEY: Yeah, so Jim
3	this agreement after 60 days. So you know,	3	MR. WIMSATT: My question, or it's more
4	if we wanted to after April, we could always	4	of just a comment, I guess, is, you know, I
5	terminate it if we had another option to move	5	think the last time that we approved this, we
6	forward with at a later time.	6	made sure that we notified the school because
7	CHAIRMAN LEWIS: Hey, Doug or Greg	7	they were happening early in the morning. The
8	MR. CHESNEY: Hey, Matt, just hold on for	8	you know, the fireworks and the other things
9	just a second. Chris has the floor.	9	and activities, so I would just ask, you know,
10	MR. BARRETT: No, I'm done.	10	Sonny and Doug to be in touch with the school
11	MR. CHESNEY: Oh, you're done?	11	again to make sure that they all know and
12	Okay. Yes, go ahead, Matt.	12	MR. CHESNEY: All right. So all so
13	CHAIRMAN LEWIS: Okay. I'm sorry, I	13	I'm going to just try to simplify this. I'm
14	wasn't intending to interrupt. I didn't hear	14	going to go ahead and make a motion because
15	anyone speaking. So I guess I did hear I	15	we need a motion to approve this?
16	just want to make sure I heard correctly, that	16	MS. McCORMICK: Right, right.
17	the agreement would run through April and then	17	MR. CHESNEY: I'll make the motion. Is
18	after that, we would need to that would be	18	there a second?
19	under the current \$5,000 that we've already	19	MR. WIMSATT: I'll second it.
20	paid. Would there be additional funds? Did I	20	MR. CHESNEY: Jim. Okay. Good.
21	hear that correctly?	21	MR. BARRETT: Can you
22	MS. McCORMICK: That's what I was told	22	MR. CHESNEY: Now, further discussion.
23	today, right, that the \$5,000 that's already	23	MR. BARRETT: Can you tell me the date of

2	MS. McCORMICK: Since when these	2	and so forth as a show of strength and support
3	activities when the activities originally	3	to maintain the property values of our property
4	began?	4	and to have a mitigation of the situation
5	MR. BARRETT: Right, so the very first	5	that's going on.
6	time that we hung the effigy.	6	I am particularly concerned, as is a lot
7	MS. McCORMICK: I don't have that	7	of other people, by stuff that I've been
8	information in front of me. Do you recall,	8	reading in the in the WOW, and you should
9	Doug or Sonny, when they first started	9	know, I've had extensive conversations with the

12	MR. MAYS: I think it was it was like	12	with the United States Department of
13	the end of summer or	13	Agriculture in Gainesville and other regional
14	MS. WHYTE: It was the end of February, I	14	areas there, and I'm just confused because I
15	think, of 2021.	15	hear one side, "Well, the USDA doesn't want to
16	(An unidentified audience member shouts.)	16	do it," and they're saying, "Yeah, we do want
17	MR. MENDENHALL: February 14th was when	17	to do it, but we're not getting support back

19	-	19	
20	original	20	phone calls, you know, everything goes to voicemail and all of that.
20	MR. CHESNEY: So while he does that, I'm		
21	going to go back to the supervisors here. So	21 22	I don't know what's really going on, but
	I'm assuming that since I've looked at		I am glad to see that we're at least coming to

Let's put up vulture deterrents and roll bars. But I also heard in a meeting I attended about a year ago, I heard actually an HOA had cited a resident who had put up a deterrent. Okay? That's not good policy. That's not good long-term policy. We need to work together. All right? I will continue voting for the CDD's part if I see actually the WCA and I see the other HOAs look at deterrents and there is discussion of it and then it disappeared. All right? So I will vote for this tonight with the understanding that the lethal doesn't occur because my wife will stop talking to me if they start killing vultures. All right? As long as Matt said, you bring the lethal to us before the next meeting to make sure before they pull that trigger that we yeah. I will also vote for this because I think we committed originally, three years

My understanding is that this is not going to go away. A lot of people are saying, "If we just do this fireworks thing and other approaches on the CDD thing for three and five years, this is going to go away." All right? That just defies common sense. You basically MR. GOLDSTEIN: To you. To you. MR. BARRETT: Well, I didn't interrupt you, Rick. All right? MR. CHESNEY: Just answer the question. MR. So I'm going to go ahead and moot the question. Is there some reason -- is he? Okay. Do you have anything to --MR. YESNER: Yes, I will say --MR. CHESNEY: Sure, go ahead. MR. YESNER: Just briefly. Most of you

all know me. My name is Shawn Yesner. I'm the

position of the Westchase Board is to support

spikes on every inch of that roof, and it would be very expensive, and then who pays for that? The other thing is the fake owls. Rick got me a fake owl and I put it -- I didn't put it on the roof because I couldn't get up there,

but I put it out in the yard. Those vultures came right up to that owl to check it out to see if it was real or not. So they are not afraid of the fake owls.

MR. CHESNEY: Yeah, and I will address one comment just as -- I hope you guys didn't feel you had to come just for this until we voted on it and did it. Like, I mean -- I knew, you know, you guys were going to come, but I mean, we also -- we live here, too. I

7	So yes?	7	to clarify a misconception.
8	MS. KNAST: Can I just make one comment?	8	MR. CHESNEY: Sure.
9	My name is Joan Knast. I live in Stonebridge.	9	MR. GOLDSTEIN: Chris, you were not with
10	Chris, to your point that about the dump on	10	us when there were two USDA site visits. Each
11	Linebaugh, I've lived here since October of	11	time, we were all over Westchase, including the
12	2004, and only in the last few years have	12	dump. We spent considerable time there. They
13	vultures been a problem, and that dump on	13	told me if you want to decrease the volume of
14	Linebaugh has always been there.	14	vultures in the dump, you got to start with the
15	MR. BARRETT: Well, I think the thing	15	island. He says they go there during the
16	that's changed is the development called Allora	16	daytime they go all over during the daytime
17	which basically removed all of the nearby	17	and they come back to roost at the island and
18	forested area just north of the dump. It's the	18	all that they want to do is make it
19	combination of the two that's caused the	19	uncomfortable for them to roost there. That's
20	movement of their nests.	20	why they were shooting off these they are
21	MS. KNAST: Yeah, and the second comment	21	not even pyrotechnics, they're just noise
22	as far as removing of trees, those trees I	22	rockets because vultures cannot see and when it
23	think there's a lot of those trees are	23	gets to be about dusk, they start to come back
24	cypress trees, which I think are protected, and	24	to where they feel safe, and if it doesn't look
25	we have a lot of other migratory birds that are	25	great to them, they go someplace else, and they
	Page 26		Page 28
1	on a protected or endangered list that inhabit	1	said if we do this three to five years, that
2	those trees. So I think that might be another	2	will bring the population down to a manageable
3	problem for I mean, while it's a great	3	level.
4	mitigation, I don't think you can I think a	4	I just wanted to mention that about the
5	lot of other agencies might have a problem with	5	dump.
6	the removal of those trees.	6	MR. CHESNEY: Yeah. Well, so the USDA

So yeah, the the easement is actually straight through the side of the power lines. MR. SARDUY: Okay. In between the power lines and the lot. Right? MR. MAYS: Yes, sir. MR. SARDUY: In between there. It's there now. Right? MR. MAYS: Yes, sir. MR. SARDUY: All right. Thank you. MR. CHESNEY: Awesome. Okay. We're going to go to the engineer's report. MR. DVORAK: I just had a couple of quick things. There was an e-mail that Sonny 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 know, get that started, get the design started. MR. CHESNEY: Okay. Further to that, did we did we clarify the minutes so that agreement will get done? MS. WHYTE: Yes. MR. CHESNEY: Okay. You got that Erin the agreement with what's her name? MS. WHYTE: Ivey Clinton. MS. MCCORMICK: Yes. MR. CHESNEY: Okay. I guess there was some confusion on whether or not we had actually approved it. In my mind, I thought we had, but you know, some people didn't think so. MS. WHYTE: That would be me. In regards to what Robert just brought up, Ivey today we had our team meeting today with the fountain

5	Ivey.	5	a contract extension, so we could opt not to do
6	MR. CHESNEY: Okay.	6	the contract extension, also, but I did want to
7	Robert, do you have anything else?	7	make sure the board was aware of that.
8	MR. DVORAK: Nope.	8	This contract is below the bidding
9	MR. CHESNEY: Fantastic. I don't do	9	threshold, also, so you know, if you ever
10	we need a motion for the survey?	10	wanted to go out and get other bids, you have

19	MR. CHESNEY: Okay.	19	which at the last meeting we talked about
20	MR. GILLIS: So one million per incident.	20	moving the district over to that has been
21	MR. WIMSATT: Yeah, per incident.	21	really well. Been really happy with dealing
22	MR. CHESNEY: Why not to be, you know,	22	with all the folks at Truist. They've been

2	we don't want to remove them out of there, so	2	I want to get them ordered now.
3	we kind of had to take them out of areas that	3	MR. CHESNEY: That makes sense.
4	people really don't go, like back on the	4	MR. MAYS: And Sonny will talk to you
5	trails.	5	more about it, but we have the St. Paddy's Day
6	Like for instance, that Baybridge Trail	6	event coming up. We usually approve that, so I
7	back there. They don't sit on those picnic	7	think this is one of them that you allow Sonny

9	there to put one over in the other location to	9	went ahead and authorized that to and we'll
10	make it safer. So we'll get the bids together	10	explain to them about the new insurance costs
11	for that, also.	11	and make sure that's covered.
12	MS. McCORMICK: So you've removed all	12	MR. CHESNEY: Is that it?
13	three of the benches that were in bad shape?	13	CHAIRMAN LEWIS: Hey, Andy?
14	MR. MAYS: Removed two of them so far,	14	MR. MENDENHALL: Yes?
15	we're doing the other one tomorrow. We are	15	CHAIRMAN LEWIS: Or Greg, I'm sorry, can

18	MS. WHYTE: I have a for three tables.	18	MR. CHESNEY: Yeah, yep. Well, he just
19	Are we doing tables or benches?	19	said that they approved it. That's all.
20	MR. MAYS: We need picnic tables.	20	MS. WHYTE: No, not yet.
21	MS. WHYTE: So the picnic tables it's	21	MR. CHESNEY: Not approved it, but
22	been a long time since I have ordered them, but	22	thinking of approving it.
23	I think they are going to be close to three,	23	CHAIRMAN LEWIS: Okay. I just wanted to
24	probably somewhere close to five, maybe a	24	make sure it didn't conflict with anything that
25	little bit more because they are the unique	25	Maloney's was doing. I thought they did

The Bucs were there, they do bubbles, they do all sorts of you know, the mascot comes and stuff and they've done it probably four or five years we've allowed them to do it, but in the last three, of course, with COVID, we haven't done and she just got our approval and she's very excited. I mean, I have the I have everything. Like she's ready to go. She sent what bounce-houses, she's sent what jumping things, whatever. So that is in West Park Village. I don't think it has anything to do with Maloney's at that end.

Do you want me to sign off on the modification or should I give it to the board members or give it to the Chair to sign off on the application? MR. CHESNEY: I think once I don't know. Andy? MR. MAYS: Okay. The one thing I did want to bring up and it's kind of sensitive, but I'm also ex-military, you know, and I believe in chain of command and there was a letter that was sent to Sonny from a board member that decided to go straight to Sonny with it and it had some, you know, negative 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Now, audience comments. Now, we have a more open forum. Now. MR. ANDERSON: My name is Barry Anderson and I live at 11829 Derbyshire Drive, in the Shires. I am currently the alternate voting member, our voting member couldn't be here. We are coming here with a question and maybe two questions and a comment. Question, if we read the minutes that you just approved of the and everything moves forward as planned, Vertex would begin construction of the cell tower on or about June 23rd and we have four months to complete their work. Is that correct? Those are the updates that we are MS. McCORMICK: Yes, yes. MR. ANDERSON: Great, that was our question. Comments. As Matt knows, the people in the Shires for possibly our oversight, our error, our not following your minutes and reading them when they were available to us really felt blind-sided with that tower approval process.

Once again, we don't really have clear access to the property, so
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 that you said. You talked in your comments at the last meeting about TECO approval. Where does TECO fit into this whole process? We didn't realize they had rights to say no, but MR. BARRETT: About that parcel or it may have been I don't remember if I was referring to that parcel or the parcel beside Westchase Elementary. I'm not MR. CHESNEY: We have several TECO issues and MR. ANDERSON: This just came in in the section where you were talking about the interests in Vertex had with getting an extension of their time and you said, "So I don't want to make any changes or approve any changes in their agreement. That would potentially, if TECO does not cooperate with us, impact our ability to still access that back parcel." What role does TECO have in not just this project, but anything that goes on back there? MR. BARRETT: Well, it's my understanding 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	 was no like I I'm probably as ignorant as everyone else in terms of what easements were there and so I was looking for the engineer to just kind of reassure me that we weren't kind of creating a block for us. MR. ANDERSON: We hope, moving forward, to work with you guys as you have plans for what is it to build the dog park, an athletic field or whatever it is, to come and talk to us before you sign something. All right? You are still free to sign whatever you want to sign, but get impact from or get feedback from the community because right or wrong, we felt blind-sided. Matt felt blind-sided and there was no communication other than in the form of petitions, which petitions are generally really too MR. CHESNEY: And just to be clear, we don't have any particular uses identified. People have suggested a dog park, some people have suggested a garden. Once again, we don't

3	The second proposal company said they	3	MR. BARRETT: The 31.
4	could produce the signage for Harbor Links	4	MR. GILLIS: Is that reasonable? I mean,
5	within six weeks, where the 31,000 plus	5	did anybody even look?
6	proposal is somewhere about 12 weeks out.	6	MR. CHESNEY: I was going to let you
7	MR. CHESNEY: I vote we let Reggie check	7	handle it.
8	it out. Don't you live there?	8	MS. WHYTE: I everything has gone up
9	MR. GILLIS: I do live there.	9	considerably in the last I mean, in the
10	MS. WHYTE: Okay. I'm just letting you	10	proposal, the aluminum has gone up, the
11	know, there was a lot of requests from Harbor	11	installation
12	Links to get these signs done because they	12	CHAIRMAN LEWIS: Yeah.
13	haven't been updated in a while and they are	13	MS. WHYTE: The installation is part of
14	looking a little bit rough.	14	higher of the two costs because everybody is
15	MR. MAYS: Just to add to that, we took	15	just they are in demand. I'm hoping that
16	some of the old stop signs that we had that	16	Creative Signs will come in less, but I can't
17	were in good shape off of the Greens that we	17	guarantee it.
18	just did and those stop signs are in decent	18	MR. WIMSATT: Matt, did you have
19	shape, so we put them on those bad ones because	19	something?
20	they were there was some of them that you	20	CHAIRMAN LEWIS: I'm sorry, go ahead.
21	couldn't even see, they were pink. You	21	MR. WIMSATT: No, I was saying you go
22	couldn't even read stop.	22	ahead.
23	So we changed those five of them, I	23	CHAIRMAN LEWIS: Oh, okay. Sorry. I
24	believe it was, out with some really decent	24	would make a motion to approve, not to exceed
25	good ones, but just so you know, they are	25	the value of the current one we have in hand,
	Page 98		Page 100
	-		2
1	actually not in DOT compliance, either, because	1	the 31,000 and change and if the other one
2	that's a 24-inch stop sign and since, they've	2	comes in lower, then we go with that one. I
3	gone to 30, is it?	3	know this needs to be done and Sonny is right.
4	MS. WHYTE: 30 plus.	4	I mean, there's a lot of escalations in not
5	MR. MAYS: 30, so we need to upgrade it	5	only labor and material, but yeah, that's
6	anyway. If we don't upgrade it, legally, we	6	all I would say.
7 8	can't tell a deputy to go back there and hand	7	MR. CHESNEY: Is there a second?
° 9	out tickets, if we choose to.	9	MR. GILLIS: I'll second it.
10	MS. WHYTE: So it's just a question MR. GILLIS: It sounds like there was	10	MR. CHESNEY: Reggie seconds. Okay. That's easy.
11	just one proposal, though.	11	Is there any further discussion?
12	MS. WHYTE: At this particular time, I	12	(No response.)
13	have one proposal.	13	MR. CHESNEY: Okay.
19	MR. BARRETT: I think what she is	14	All in favor, signify by saying, "Aye."
15	suggesting is we approve not to exceed that	15	(All board members signify in the
16	proposal and if second one comes in lower	16	affirmative.)
17	MS. WHYTE: And I'm obviously going to go	17	(Motion passes.)
18	with the lesser of the two, especially since	18	MS. WHYTE: Thank you.
19	they are six weeks to installation, which is	19	MR. CHESNEY: Awesome. All right.
20	great because they said they have almost	20	MR. BARRETT: Just so you know, that goes
21	everything in stock.	21	into the Harbor Links specific fund, so you got
22	I don't know if you want to do that. I	22	to pay for that all yourself.
23	certainly can wait until I get the written	23	MS. WHYTE: That's okay. We've already
24	proposal and bring it back to you next month,	24	done the budget for the year.
25	that would delay that project	25	MR. CHESNEY: All right.

2	MR. WIMSATT: I've got nothing.	2	give them 48 hours to respond or to move the
3	MR. BARRETT: Actually, I did have two	3	car before they take action. So it's not like
4	people from Village Green reach out to me and	4	just totally like your car goes missing.
5	ask about cars that are registered, but are	5	There is an attempt to reach out and say
6	parked in the same spot for more than like six	6	MR. CHESNEY: I mean, we have a towing
7	months. There is two that have been kind of a	7	program for the I don't know that we've ever
8	pain in that and I was like, "Well, there is	8	used it. Have we ever towed anyone?
9	not really anything we" and then I	9	MR. MAYS: No, had to move a car or two,
10	remembered actually when I was covering the	10	but
11	Park Place CDD up in Highland Park. They	11	MR. CHESNEY: Maybe 15 years ago, I think
12	actually did have a policy where cars	12	when we put it enforced it.
13	basically, there was a time limit for,	13	MR. MAYS: But we do contact Hillsborough
14	basically, you just leaving a car on the road	14	County with our off duty deputies and they will
15	registered, but not cared for and so there is	15	run the tag and let them know that
16	the possibility that we if we followed their	16	MR. CHESNEY: Why don't we issue warnings
17	model, we could actually adopt we could have	17	for a while maybe or something. Can we do
18	a public meeting and again, I'm looking for	18	that?
19	your input in this; whether you'd agree because	19	MR. BARRETT: Well, I was just wondering
20	that's just s different entity. But they would	20	if there was a desire to potentially start a
21	have a public meeting, adopt a set of rules for	21	process to look at adopting a formal policy
22	parking in the community and then notify people	22	that will address that unique circumstance and
23	by letter, "This is what we're going to do," so	23	then just the other part two of that
24	if we have evidence of a car parked, pick a	24	complaint was just parking enforcement because
25	time	25	there are people parking in front of hydrants
	Page 102		Page 104
1	MR. CHESNEY: Well, just curious, why	1	and really close to intersections. I don't
2	wouldn't you just have the HOA deal with it?	2	know if that's how we want to use our deputies
3	MR. BARRETT: Because it is West Park	3	or not, but I promised them that I would bring
4	Village, technically Village Green and so	4	up both issues in my supervisor's comments. So
5	street parking is allowed.	5	
6	MR. CHESNEY: Oh, but they are private	6	MR. MAYS: Well, that's how we've been
7	roads in Village Green. I see.	7	handling it for years, just to call the
8	MR. BARRETT: Right, and we own the roads	8	sheriff.
9	in Village Green. So it's kind only unique to	9	MR. CHESNEY: Yes, Matt?
10	our gated community. That's what makes this a	10	CHAIRMAN LEWIS: I'm sorry, Doug. I
11	weird thing.	11	didn't mean to interrupt you. I guess who
12	MS. McCORMICK: Yeah, that is a little	12	would who would be the I don't know if
13	bit of a complicated issue because you know,	13	enforcer is the right word, but like who's the
14	it depends on what I think your remedy is going	14	one that would enforce or monitor who parks
15	to be, too, in the event that a car is parked	15	there for a while? Any thought on that or am I
16	there for a long period of time. I mean, in	16	missing the
17	order to tow it, you have to have posting on	17	MR. BARRETT: The only thing that we can
18	the road.	18	do is rely on staff to basically go out and
19	MR. BARRETT: Right, and what they do is	19	document its presence.
20		20	CHAIRMAN LEWIS: Oh, okay.
	they just basically post the notice at the		-

2	that?	2	issues that the Village Green member had
3	MR. BARRETT: Well, actually, one of them	3	brought to my attention, as well.
4	was the voting member.	4	MR. CHESNEY: Okay.
5	MR. CHESNEY: Oh, okay. It just seems	5	CHAIRMAN LEWIS: I like the idea of
6	like a WCA thing would be easier.	6	getting a little bit more background
7	MR. BARRETT: It's not because the WCA	7	information from Erin.
8	does not have	8	MS. McCORMICK: What did he say?
9	MR. CHESNEY: They can't carve out	9	MR. CHESNEY: Well, he said he's
10	Village Green?	10	interested in it, but he would be want more
11	MR. BARRETT: They would have to change	11	background from you about the legality.
12	the deed restrictions.	12	MS. McCORMICK: Yeah, it's not going to
13	MR. CHESNEY: Okay.	13	be I don't think this is going to be an
14	MS. WHYTE: So when that has happened,	14	extremely simple issue to address. I mean, we
15	what we have done is they've called our office	15	have a traffic enforcement agreement for the
16	and we reach out to our office duty deputies,	16	for Harbor Links and the Greens. We don't have
17	they run the tag, they go to the person and ask	17	one for West Park Village because we would have
18	them politely to move, that they're parking in	18	to be able to certify that we meet the
19	a fire hydrant and that's the way we've always	19	MR. CHESNEY: This is in the Greens.
20	done it. There hasn't been all that many, it's	20	MS. McCORMICK: This is in the Greens,
21	just there was a few that rent out the back end	21	okay.
22	of their what do they call them	22	MR. BARRETT: It's one part of the Greens
23	grandmother suites or whatever and because	23	that is still covered by West Park Village's
24	there is street parking and it's limited as	24	street parking deed restriction. That's the
25	Robert had indicated hence, why I sent it to	25	weird thing about it.
	· ·		-
	Page 106		Page 108
1	Robert, the same request that he's that he	1	MR. CHESNEY: From a WCA's standpoint,
2	spoke to you on, he e-mailed us and we I	2	but it's in the Greens.
3	sent it to Robert because we can easily mark	3	MS. McCORMICK: Okay. Well, maybe it is
4	the streets like a lot of places do in West	4	something that the sheriff's office could help
5	Park Village, but that really does limit the	5	us with, you know, without having to go through
6	parking and there's a lot of street parking in	6	the process of adopting by having a public
7	the Greens in that area.	7	hearing, adopting new rules and ensuring that
8	MR. BARRETT: Well, I think the number	8	we comply with the towing regulations.
9	one issue is this abandoned vehicles thing. So	9	MR. BARRETT: But addressing the
10		10	abandoned cars, I think that's the only way
11	MS. WHYTE: We checked the tags, the	11	you're going to be able to do it because it's
12	people live there. The ones that we've had,	12	not they've called out the sheriff multiple
13	they have been moved.	13	times to address these cars before.
14	MR. BARRETT: Actually, there are two	14	MS. McCORMICK: And they wouldn't do it?
15	there currently that they were complaining of	15	MR. WIMSATT: My concern is I know the
16	and one of them is actually the guy who lives	16	laws around towing are just very, very specific
17	he lives most of the time out of the	17	and very punitive if you tow a car that you
18		18	should not be towing.
10	community, but just left his car in front of the home that his son lives in. So there are	19	_
20		20	MS. McCORMICK: Absolutely.
20	two cars in there, according to this person	20	MR. GILLIS: For sure.
	now, that have just not been moved in over six	21	MR. WIMSATT: At my old law firm, that's all they do. It's bizarre, but that's what
22	or eight months

23	So anyway, I just committed to if this	23	they do. So you know, if we do it, I just

2	CHAIRMAN LEWIS: Good feedback.	2	by those guidelines.
3	MR. CHESNEY: Okay.	3	Chris, I again, the Sunshine Law, I
4	MR. YESNER: To my knowledge, the WCA	4	know we don't talk to each other between
5	doesn't oh, sorry, Shawn Yesner. The WCA	5	meetings and I didn't feel comfortable reaching
6	doesn't own the roads, so we don't have	6	out to you, but there was some misinformation
7	enforcement of	7	that had been given to the WCA about our last
8	MR. CHESNEY: Well, you have deed	8	meeting and so that's why I went to the WCA's
9	restrictions. You can't park at the Bridges	9	meeting just to clarify what we had discussed
10	overnight. I actually had that issue and I	10	at our CDD meeting. So I didn't mean to step
11	called Debbie and she took care of it.	11	on your toes and I typically don't try to jump
12	MR. YESNER: I got one, too, when my	12	in if I have already delegated something or
13	mother-in-law was here. So we can send	13	another supervisor had offered to do something.
14	violation notices, but we can't tow the cars.	14	So I just wanted to address that. It was not
15	MR. CHESNEY: Yeah, I understand that,	15	intentional.
16	but you would think that just getting a	16	MR. BARRETT: Thank you, Matt. I
17	violation notice would make them stop doing	17	appreciate that.
18	that. I didn't realize it was so complicated	18	CHAIRMAN LEWIS: Sure. The other thing
19	on a violation notice.	19	is the board is accessible to this. With the
20	Okay. Well, that's something to think	20	recent resignation of Mr. Ross, I drafted a
21	about.	21	letter that I'd like to present to him. It's a
22	Reggie?	22	if he would be so kind to come in or if not,
23	MR. GILLIS: No, I obviously am more I	23	I can send it to him, just thanking him for his
24	agree, I think we need a lot more information.	24	service on the CDD.
25	I know there's a ton of cars in Harbor Links	25	If there is any negative feedback that,
	Page 110		Page 112

2	you can't tow.	2	MR. CHESNEY: Okay. Can we discuss that
3	MR. CHESNEY: Yeah, I didn't mean to put you on the spot about that issue. I just meant	3	at the next meeting? Brian was do we know
4	like if you had any requests or want to make a	4	how long Brian was on this board? It's been a
5	comment, this is an open time to do so.	5	while. Right?
6	MR. GILLIS: No, I do not.	6	MR. MAYS: Yes.
7	MR. CHESNEY: Gotcha.	7	CHAIRMAN LEWIS: Yeah, I was going to
8	MR. GILLIS: Brand new, glad to be here.	8	talk to Sonny about that and come up with a
9	MR. CHESNEY: Awesome. So I think we're	9	specific timeframe.
10	done. Right? I'm a little out of practice in	10	MR. CHESNEY: I don't know, we don't have
10	doing this and I did not do it much	11	any hard and fast rules. I mean, some people,
12	CHAIRMAN LEWIS: Greg, I have a	12	we send a letter; some people, we have a party.
13	supervisor request.	13	CHAIRMAN LEWIS: Well, at the very least,
14	MR. CHESNEY: What did he say?	14	I just wanted to thank him for his service and
15	MR. WIMSATT: He said he has a request.	15	you know, I hope that you all would agree.
16	MR. CHESNEY: Oh, sure, Matt. I'm sorry,	16	MR. CHESNEY: Yeah, I think that's a
17	I didn't call on you.	17	great idea. Thank you for bringing that up.
18	CHAIRMAN LEWIS: That's okay. I'll give	18	CHAIRMAN LEWIS: Yep. And then the last
19	you a strike for that one. I'm kidding. Hey,	19	one is Reggie, welcome to the board. We're
20	so real quick, I wanted to address something	20	very happy to have you and are looking forward
20	from the last meeting just very quickly on the	20	to your ideas and I'm sorry I wasn't there in

INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors Westchase Community Development District Hillsborough County, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Westchase Community Development District, Hillsborough County, Florida ("District") as of and for the fiscal year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2022, and the respective changes in financial position thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information Included in the Financial Report

Management is responsible for the other information included in the financial report. The other information comprises the information for compliance with FL Statute 218.39 (3) (c), but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 1, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Westchase Community Development District, Hillsborough County, Florida ("District") provides a narrative overview of the District's financial activities for the fiscal year ended September 30, 2022. Please read it in conjunction with the District's Independent Auditor's Report, basic financial statements, accompanying notes and supplementary information to the basic financial statements.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year resulting in a net position balance of \$15,797,913.
- The change in the District's total net position in comparison with the prior fiscal year was (\$282,556), a decrease. The key components of the District's net position and change in net position are reflected in the table in the government-wide financial analysis section.
- At September 30, 2022, the District's governmental funds reported combined ending fund balances of \$5,846,652, an increase of \$222,504 in comparison with the prior fiscal year. A portion of fund balance is non-spendable for deposits, assigned to capital projects, reserves, projects, and subsequent year's expenditures and the remainder is unassigned fund balance which is available for spending at the District's discretion.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as the introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual amount being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements include all governmental activities that are principally supported by special assessment revenues. The District does not have any business-type activities. The governmental activities of the District include the general government (management), physical environment (maintenance), and culture and recreation functions.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: governmental funds.

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Fund Financial Statements (Continued)

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflow of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains two governmental funds for external reporting. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general and capital projects funds, both of which are considered major funds.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of an entity's financial position. In the case of the District, assets exceeded liabilities at the close of the most recent fiscal year.

Key components of the District's net position are reflected in the following table:

NET POSITION SEPTEMBER 30.									
		2022		2021					
Current and other assets	\$	6,463,525	\$	5,835,632

Total net position	\$	15,797,913	\$	16,080,469					

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

The District's net position reflects its investment in capital assets (e.g. land, land improvements, and infrastructure) less any related debt used to acquire those assets that is still outstanding. These assets are used to provide services to residents; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the District's other obligations.

The District's net position decreased during the most recent fiscal year. The majority of the decrease represents the extent to which the cost of operations and depreciation expense exceeded ongoing program revenues.

Key elements of the change in net position are reflected in the following table:

FOR THE FISCAL YEAR ENDED SEPTEMBER 30,							
	2022			2021			
Revenues:							
Program revenues:							
Charges for services	\$	3,235,217	\$	3,179,962

Net position - ending	\$	15,797,913	\$	16,080,469			

CHANGES IN NET POSITION FOR THE FISCAL YEAR ENDED SEPTEMBER 30,

As noted above and in the statement of activities, the cost of all governmental activities during the fiscal year ended September 30, 2022 was \$3,529,003. The costs of the District's activities were primarily funded by program revenues, comprised primarily of assessments and miscellaneous revenue, which increased from the prior year. The majority of the increase results from insurance reimbursements received in current fiscal year. In total, expenses, including depreciation, increased from the prior fiscal year. The majority of an increase in repair and maintenance costs.

GENERAL BUDGETING HIGHLIGHTS

An operating budget was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. Actual general fund expenditures did not exceed appropriations for the fiscal year ended September 30, 2022.

CAPITAL ASSETS

At September 30, 2022, the District had \$23,169,650 invested in capital assets for its governmental activities. In the government-wide financial statements depreciation of \$13,218,389 has been taken, which resulted in a net book value of \$9,951,261. More detailed information about the District's capital assets is presented in the notes of the financial statements.

ECONOMIC FACTORS AND NEXT YEARS BUDGETS AND OTHER EVENTS

The District anticipates that the general operations will remain fairly constant. In connection with the District's future infrastructure maintenance and replacement plan, the District Board has included in the budget an estimate of those anticipated future costs and has assigned a portion of current available resources for that purpose.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, landowners, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the financial resources it manages and the stewardship of the facilities it maintains. If you have questions about this report or need additional financial information, contact the Westchase Community Development District's Finance Department at 210 N. WESTCHASE COMMUNITY DEVELOPMENT DISTRICT HILLSBOROUGH COUNTY, FLORIDA NOTES TO FINANCIAL STATEMENTS

NOTE 1 – NATURE OF ORGANIZATION AND REPORTING ENTITY

Westchase Community Development District ("District") was created on January 9, 1991 by Ordinance 91-1 of the Board of County Commissioners of Hillsborough County, Florida, pursuant to the Uniform Community Development District Act of 1980, otherwise known as Chapter 190, Florida Statutes. The Act provides among other things, the power to manage basic services for community development, power to borrow money and issue bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure. In a prior fiscal year, the District and Westchase East Community Development District passed resolutions allowing actions to be taken to merge the Districts. Pursuant to the agreement, Westchase Community Development District is the surviving District and assumed all indebtedness of, and received title to all property owned by Westchase East Community Development District.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by the Board of Supervisors ("Board"), which is composed of five members. The Supervisors are elected by the owners of the property within the District. The Board of Supervisors of the District exercise all powers granted to the District pursuant to Chapter 190, Florida Statutes.

The Board has the responsibility for:

- 1. Assessing and levying assessments.
- 2. Approving budgets.
- 3. Exercising control over facilities and properties.
- 4. Controlling the use of funds generated by the District.
- 5. Approving the hiring and firing of key personnel.
- 6. Financing improvements.

The financial statements were prepared in accordance with Governmental Accounting Standards Board ("GASB") Statements. Under the provisions of those standards, the financial reporting entity consists of the primary government, organizations for which the District is considered to be financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that, if excluded, the financial statements of the District would be considered incomplete or misleading. There are no entities considered to be component units of the District; therefore, the financial statements include only the operations of the District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; operating-type special assessments for maintenance and debt service are treated as charges for services and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not included among program revenues are reported instead as *general revenues*.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments are recognized as revenues in the year for which they are levied. Grants and similar items are to be recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Assessments

Assessments are non-ad valorem assessments on benefited lands within the District. Assessments are levied to pay for the operations and maintenance of the District. For debt service, certain amounts are collected at lot closings as advance payments and are used to prepay a portion of the Bonds outstanding. Otherwise, assessments are collected annually to provide funds for the debt service on the portion of the Bonds which are not paid with prepaid assessments. The fiscal year for which annual assessments are levied begins on October 1 with discounts available for payments through February 28 and become delinquent on April 1. The District's annual assessments for operations and debt service are billed and collected by the County Tax Assessor/Collector. The amounts remitted to the District are net of applicable discounts or fees and include interest on monies held from the day of collection to the day of distribution.

Assessments, and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. The portion of assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period.

The District reports the following major governmental funds:

General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital Projects Fund

This fund accounts for the financial resources to be used for the acquisition or construction of major infrastructure and replacement of uninsurable assets within the District.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first for qualifying expenditures, then unrestricted resources as they are needed.

Assets, Liabilities and Net Position or Equity

Restricted Assets

These assets represent cash and investments set aside pursuant to Bond covenants or other contractual restrictions.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand and demand deposits.

The District has elected to proceed under the Alternative Investment Guidelines as set forth in Section 218.415 (17) Florida Statutes. The District may invest any surplus public funds in the following:

- a) The Local Government Surplus Trust Funds, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act;
- b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
- c) Interest bearing time deposits or savings accounts in qualified public depositories;
- d) Direct obligations of the U.S. Treasury.

Securities listed in paragraphs c and d shall be invested to provide sufficient liquidity to pay obligations as they come due. In addition, surplus funds may be deposited into certificates of deposit which are insured and any unspent Bond proceeds are required to be held in investments as specified in the Bond Indentures.

The District records all interest revenue related to investment activities in the respective funds. Investments are measured at amortized cost or reported at fair value as required by generally accepted accounting principles.

Inventories and Prepaid Items

Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads, sidewalks and similar items) are reported in the government activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

Assets	<u>Years</u>
Improvements	10 - 30
Buildings	15 - 40
Infrastructure	15 - 40
Machinery and equipment	5 - 20

Assets, Liabilities and Net Position or Equity (Continued)

Capital Assets (Continued)

In the governmental fund financial statements, amounts incurred for the acquisition of capital assets are reported as fund expenditures. Depreciation expense is not reported in the governmental fund financial statements.

Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned.

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized ratably over the life of the Bonds. Bonds payable are reported net of applicable premiums or discounts. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Fund Equity/Net Position

In the fund financial statements, governmental funds report non spendable and restricted fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Assignments of fund balance represent tentative management plans that are subject to change.

The District can establish limitations on the use of fund balance as follows:

<u>Committed fund balance</u> – Amounts that can be used only for the specific purposes determined by a formal action (resolution) of the Board of Supervisors. Commitments may be changed or lifted only by the Board of Supervisors taking the same formal action (resolution) that imposed the constraint originally. Resources accumulated pursuant to stabilization arrangements sometimes are reported in this category.

<u>Assigned fund balance</u> – Includes spendable fund balance amounts established by the Board of Supervisors that are intended to be used for specific purposes that are neither considered restricted nor committed. The Board may also assign fund balance as it does when appropriating fund balance to cover differences in estimated revenue and appropriations in the subsequent year's appropriated budget. Assignments are generally temporary and normally the same formal action need not be taken to remove the assignment.

Assets, Liabilities and Net Position or Equity (Continued)

Fund Equity/Net Position (Continued)

The District uses restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal agreements that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the District would first use committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net position is the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position in the government-wide financial statements are categorized as net investment in capital assets, restricted or unrestricted. Net investment in capital assets represents net position related to infrastructure and property, plant and equipment. Restricted net position represents the assets restricted by the District's Bond covenants or other contractual restrictions. Unrestricted net position not meeting the definition of either of the other two components.

Other Disclosures

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3 – BUDGETARY INFORMATION

The District is required to establish a budgetary system and an approved Annual Budget. Annual Budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund. All annual appropriations lapse at fiscal year-end.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- a) Each year the District Manager submits to the District Board a proposed operating budget for the fiscal year commencing the following October 1.
- b) Public hearings are conducted to obtain public comments.
- c) Prior to October 1, the budget is legally adopted by the District Board.
- d) All budget changes must be approved by the District Board.
- e) The budgets are adopted on a basis consistent with generally accepted accounting principles.
- f) Unused appropriation for annually budgeted funds lapse at the end of the year.

NOTE 4 – DEPOSITS

The District's cash balances were entirely covered by federal depository insurance or by a collateral pool pledged to the State Treasurer. Florida Statutes Chapter 280, "Florida Security for Public Deposits Act", requires all qualified depositories to deposit with the Treasurer or another banking institution eligible collateral equal to various percentages of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held. The percentage of eligible collateral (generally, U.S. Governmental and agency securities, state or local government debt, or corporate bonds) to public deposits is dependent upon the depository's financial history and its compliance with Chapter 280. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses.

NOTE 5 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended September 30, 2022 was as follows:

Depreciation expense was charged to the physical environment function/program.

NOTE 6 – RETIREMENT PLAN

The District maintains individual retirement accounts for employees who meet a certain pay requirement. The District's required contribution is 6% of the total salaries of qualified participants. Total salaries of qualified participants for the fiscal year ended September 30, 2022 were \$257,374. Employer contributions for the period were \$15,436.

NOTE 7 – LAND LEASE AGREEMENT

In January 2021 the District executed an option and land lease agreement with Vertex Development LLC whereby in consideration of a payment of \$3,000 the District grants Vertex the option to lease a portion of land. Pursuant to the agreement, the option will be for a period of 12 months. If the option is exercised Vertex will construct, install, operate and maintain a wireless communication facility. The lease will be for 10 years with three 5 year options to extend. Base fee is set at \$21,000 annually with a 3% annual increase. In September 2021, the option was extended to 18 months. In the current fiscal year, the District received an additional \$4,500 for exercising the option to lease. Upon exercising the Option, Vertex shall be permitted to construct, install, operate and maintain a Wireless Communication Facility ("WCF").

The District is a lessor for a noncancellable lease of land and recognized a lease receivable and a deferred inflow of resources in the financial statements.

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

NOTE 7 – LAND LEASE AGREEMENT (Continued)

Key estimates and judgements include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated borrowing rate as the discount rate for leases.
 - The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Lease receivable

In current fiscal year, the District began leasing land to Vertex Development LLC. The lease is structured with an initial ten-year term, with the option of three renewal terms which are all five-year terms. As of fiscal year 2022, the District is to receive \$21,000 payment per year with a 3% annual increase. The District recognized \$3,483 in lease revenue and \$2,510 in interest revenue during the current fiscal year related to this lease. As of September 30, 2022, the District's receivable for lease payments was \$501,464. Also, the District has a deferred inflow of resources of \$518,981 associated with this lease that will be recognized as revenue over the lease term.

Maturity Schedule

At September 30, 2022, the scheduled lease requirements on the long-term lease were as follows:

Fiscal Year Ending			
September 30,	Principal	Interest	Total Receipts
2023	\$ 6,377	\$ 15,253	\$ 21,630

Total Future Receipts	\$ 501,464	\$ 243,181	\$ 744,645

NOTE 8 – MANAGEMENT COMPANY

The District has contracted with a management company to perform management advisory services, which include financial and accounting services. Certain employees of the management company also serve as officers of the District. Under the agreement, the District compensates the management company for management, accounting, financial reporting and other administrative costs.

NOTE 9 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained commercial insurance from independent third parties to mitigate the costs of these risks; coverage may not extend to all situations. Settled claims have not exceeded commercial insurance coverage over the past three years.

WESTCHASE COMMUNITY DEVELOPMENT DISTRICT HILLSBOROUGH COUNTY, FLORIDA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

The District is required to establish a budgetary system and an approved Annual Budget for the general fund. The District's budgeting process is based on estimates of cash receipts and cash expenditures which are approved by the Board. The budget approximates a basis consistent with accounting principles generally accepted in the United States of America (generally accepted accounting principles).

The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. Actual general fund expenditures did not exceed appropriations for the fiscal year ended September 30, 2022.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Supervisors Westchase Community Development District Hillsborough County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Westchase Community Development District, Hillsborough County, Florida ("District") as of and for the fiscal year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our opinion thereon dated March 1, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH THE REQUIREMENTS OF SECTION 218.415, FLORIDA STATUTES, REQUIRED BY RULE 10.556(10) OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

To the Board of Supervisors Westchase Community Development District Hillsborough County, Florida

We have examined Westchase Community Development District, Hillsborough County, Florida's ("District") compliance with the requirements of Section 218.415, Florida Statutes, in accordance with Rule 10.556(10) of the Auditor General of the State of Florida during the fiscal year ended September 30, 2022. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced in Section 218.415, Florida Statutes. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended September 30, 2022.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, management, and the Board of Supervisors of Westchase Community Development District, Hillsborough County, Florida and is not intended to be and should not be used by anyone other than these specified parties.
